

SP-4003: 6-in-1 Car Charger

The Six in One Car Charger from Secur Products is a multi-function safety and charging tool that includes a car charger, portable power bank, LED flashlight, emergency flashing red LED light, window breaker and seatbelt cutter. It can be charged by a car cigarette lighter or any USB power source.

Mobile phone iPod iPhone iPad

PRODUCT DESCRIPTION:

- ① LED flashlight & indicator light (blue)
- ② Micro USB port (DC input)
- ③ Battery level/charging indicator (Green)
- ④ USB port (DC output)
- ⑤ Battery level button/Flashlight on/off button
- ⑥ Seat Belt Cutter
- ⑦ Leaf springs
- ⑧ Cigarette lighter charger plug & Window Breaker

PRODUCT SPECIFICATIONS:

1. Size: 4.5" × 1.6" × 1.0"
2. DC input (via cigarette lighter charger): 12V -24V/10A
3. DC input (via USB): 5V/400mA
4. DC output: 5V/ 1A (Max)
5. Battery Capacity: 2200mAh
6. White LED light & flashing red LED light
7. Battery capacity indicator
8. Windshield breaker
9. Seat belt cutter
10. Main materials: ABS & Aluminum

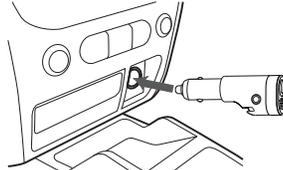

OPERATING INSTRUCTIONS:

• CHARGE MOBILE PHONES OR OTHER DIGITAL DEVICES WHILE IN THE CAR:

Step 1: Plug the car charger into car cigarette lighter. The green recharging indicator will be flashing and the blue working indicator light will light up.

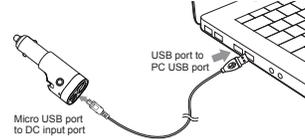

Step 2: Use the provided micro USB cable to connect your device to the car charger USB port. If you are using an iPhone or iPad, please use your original USB cable that was provided with your device.

Step 3: While charging this will be indicated on your device.

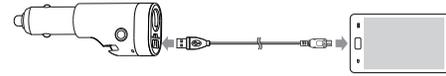

• CHARGING THE CAR CHARGER BATTERY:

USING THE CAR CIGARETTE LIGHTER – Remove the magnetic cover on the base of the charger. Plug the cigarette lighter plug into your car's cigarette lighter port. Charging will begin automatically and will continue as long as it is plugged in.

USING AN EXTERNAL USB POWER SOURCE: Use the provided USB cable to connect the car charger micro USB port and the USB power supply USB port. When charging the green charging indicator will be flashing and the blue working indicator will light up. When the battery is full, the indicator will stop flashing and all green energy indicators will light up.

• USING THE PORTABLE POWER BANK TO CHARGE MOBILE PHONES OR OTHER DIGITAL DEVICES:

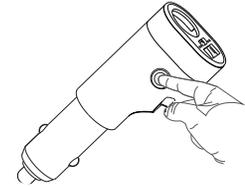

Step 1: You can remove the car charger and use it as a portable power bank. Use the provided Micro USB to plug into your device and connect the USB plug to the car charger. If your device is an iPhone, please use your original USB cable that was provided with your device.

Step 2: Press the flashlight button ⑤ twice and your device will indicate that it is charging. The blue LED light will be lit.

• CHECKING BATTERY CHARGE LEVEL:

Press the flashlight button ⑤ once and the power level indicator LEDs will light up and show the power status of the battery.

All green LEDs lit up indicates that the battery capacity is from to 75% to 100% - 2 green LEDs lit up mean about 50% capacity – 1 green LED lit up means 5% - 25% battery capacity.

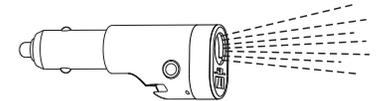

• USING THE FLASHLIGHT:

Step 1: Press and hold the flashlight button ⑤ for 3 seconds and the white LEDs will come on.

Step 2: Press the button again to activate the red flashing light. Press again to return to the white light.

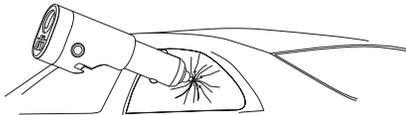

Step 3: Press and hold the flashlight button for 3 seconds to turn the light off.

• USING THE WINDOW BREAKER:

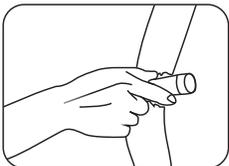

The window breaker uses a small metal pin that is hidden in the tip of the cigarette lighter plug. Hold the car charger in your hand and strike hard on the corner of car window with the tip of the cigarette lighter plug. The edge of the glass is the weakest and the glass will break.

Note: This is an emergency feature and is only intended to break a window once or twice.

• USING THE SEAT BELT CUTTER:

The seat belt cutter is hidden in the side of the car charger to protect from cutting someone. Hold the bottom of the car charger and put the cutting edge on the seat belt and cut it off smoothly with a back and forth motion as shown in the picture and the seat belt will be cut off.

Cutting the seat belt in case of an emergency.

PRECAUTIONS:

- The car charger is not waterproof and should always be kept dry.
- Never put the car charger into fire to avoid an explosion.
- If the car charger gets wet by accident use a cloth to absorb the water and do not use until it is dry. If it is severely wet use a hair dryer to dry it before using.
- Do not put the charger in excessive heat (over 150 degrees F), wet or corrosive environments.
- The car charger has an intelligent protection function to control overcharging, over discharging, overload and short circuits. This will greatly extend the life of the battery and your digital device.
- If the car charger or power bank functions do not work, check the following options:
 - 1). Check whether the USB adapter plug is suitable for your device.
 - 2). Check whether the product shuts down automatically. If yes, just reactivate the product by charging the built-in battery.
 - 3). If the charger has not been used for more than six months, the power of the built-in battery may be exhausted. If the charging indicator is weak, the charger will not charge your mobile phone. To solve this problem, use the provided USB cable to recharge or plug into the cigarette lighter for 2 to 3 hours.
 - 4). In order to prolong the battery life, charge it at least once every six months.
- This is not a toy. Please keep away from Children under three years old.

LIMITED 1 YEAR WARRANTY
