To all organizers, coordinators and food vendors at special events:

It is in the best interest of the organizer, sponsor, coordinator, and food vendors that you contact the Jackson County Department of Public Health, Fire Marshal, etc. prior to any event involving food to determine what will be required.

The following pages list the permitting requirements, information and applications for temporary food establishments. Read these requirements carefully. Applications (for organizers and vendors) must be submitted at least 15 calendar days prior to event. Each question must be answered or the application will be considered incomplete. It is the responsibility of the vendor to meet all requirements of the State laws governing temporary food service establishments before a permit can be issued. **Each food vendor shall submit \$75.00 by check or cash. Vendor application and permit fees received after the deadline will not be considered and will be returned to vendor.**

Please be aware of any legal problems that could result from selling food. Selling food without a permit at an event where a permit is required will result in a cease order being issued and possible legal action.

A copy of the rules governing temporary food service establishments is provided. If you would like a complete copy of rules governing foodservice establishments please visit the following websites.
