

RLC IN ACTION

Invite ❖ Engage ❖ Equip ❖ Embody

We decorated our sanctuary to celebrate our Lord's birth!

Warmer days are here! At least on the inside of the church, thanks to our new boiler system. While it was being installed, we held a cozy service in the old sanctuary, which we heated with space heaters. Thank you to Todd Hannah and the Property Committee for overseeing this vital project.

A security system was installed to provide strategic surveillance of sensitive areas around our buildings and property. Thank you to all who contributed their advice, time, talents and resources toward the increased protection of Kids Inc., our church family and our church property.
