

2012 Pool Tile Catalog

Master Tile
POOL & SPA TILE

The logo features the brand name 'Master Tile' in a large, elegant, cursive script. Below it, the words 'POOL & SPA TILE' are written in a smaller, clean, sans-serif font. The entire logo is centered within a decorative, dark-colored archway that is part of a larger, ornate scrollwork design. The background of the entire page is a mosaic of square tiles in various shades of brown, tan, and beige, with a central horizontal band of darker, more varied tiles.

Presented by
LittleTileInc.com

Master Tile supplies the finest in swimming pool tile, coping, plastering, and decking products. Since our origin in 1998, Master Tile has been a leader in the introduction of new and innovative products for the swimming pool industry. We import waterline tile from premium manufacturers throughout the world. Our coping lines include kiln-fired clay brick as well as imported natural stones.

We have locations in Houston, Dallas, Oklahoma City, New Jersey, Tampa, Anaheim, and Las Vegas. Through our numerous locations and well-stocked inventory, Master Tile is capable of shipping material directly to customers, anywhere in the U.S., on a daily basis. Our state-of-the-art showrooms offer our customers an opportunity to manipulate and view their tile and coping selections in a way that will allow them to visualize them on a pool. Master Tile also supplies samples to further assist in the selection process.

Should be set with any high-grade, flexible mortar system (Latex modified thinset). Variations in color, shading, and patterns are characteristic of all stained glass products. Final selection should be made from actual glass and not from glass samples or color reproductions.

Consumer should inspect glass before installation.

GLASS:
HIRJWL JI 1240

COPING: Sienna Gold Tumbled

www.mastertilepool.com

Shade variations are an inherent characteristic of all kiln-fired ceramic tiles. Please inspect actual shade of tile before installation. Use constitutes acceptance.

Shade variations are an inherent characteristic of all kiln-fired ceramic tiles. Please inspect actual shade of tile before installation. Use constitutes acceptance.

Natural Stone

coping and deck tiles are available in eleven beautiful colors. They are available in various sizes of coping and paving tiles. They are ideal for interior as well as exterior uses. As with any natural stone, slight imperfections in color, size and shape are to be expected. We strongly recommend inspection before installation. Use constitutes acceptance.

All Natural Stones must be sealed (see page 30). Sealing is an absolute MUST to guard against salt attack on salt water pools. Sealing will prevent water penetration that can affect the durability of the stone. Water penetration can also damage the material in freezing conditions. Buyer must determine that the product's slip resistance is acceptable for an outdoor application.

Shade variations are an inherent characteristic of all kiln-fired ceramic tiles. Please inspect actual shade of tile before installation. Use constitutes acceptance.

Natural Slate Coping & Deck Tile

NATURAL SLATE has a texture and range of color unlike any other natural stone. Slate combines beautifully with other natural materials and is an excellent choice for exterior applications. It is available in a variety of colors and sizes for decking applications. As with any natural stone, expect slight imperfections in size and shape. Wide ranges in color enhance slate's natural beauty, as no two pieces are alike. We strongly recommend inspection before installation. Use constitutes acceptance. Some flaking of slate should be expected after installation. Condition will lessen over time.

All slate products must be sealed (see page 30). Sealing will prevent water penetration that can affect the durability of the stone. Water penetration can also damage the material in freezing conditions.

DIAMOND BRITE®

See actual samples before installation.

Diamond Brite® is an exposed aggregate pool finish blended from natural quartz aggregate, polymer modified cement, and non-fading colorquartz in a stunning variety of colors. This unique interior pool finish is durable, easy to maintain and comfortable to swimmers' feet.

DEPTH MARKERS

Master Tile stocks a complete line of depth marker tiles in both a glazed finish for the water line as well as a non-skid finish for pool decks.

JANDY SHEER DESCENT

Available in 12" to 60" lengths with standard or extended lip

TexRite Nu-Deck

Nu-Deck is a polymer modified Portland cement based decorative coating, designed to enhance the appearance of any concrete surface. The product can be sprayed on and knocked down to provide a textured finish. It can also be trowel applied over stencils or carved to give the deck a stone, tile, or brick look.

DRY TREAT SEALERS

DRY-TREAT 40SK is an impregnating sealer used to consolidate and strengthen surfaces and repel water. Protects stone surfaces from water penetration and salt damage. Follow application instructions.

META CRÉME™ is the next generation impregnating sealer which surpasses all others in performance, durability and protection. It is a one time, low VOC sealer which is the ultimate in environmentally responsible protection for stone, tiles, bricks, paving, concrete and grout.

ENHANCE-PLUS is a penetrating and breathable sealer used to enrich and enhance the color of natural stone, pavers and natural stone tile. Follow application instructions.

STAIN-PROOF is an invisible and breathable sealer suitable for all natural stone, pavers and natural stone tile. Guards against surface staining, retains existing color and finish, and guards against salt attack. Ideal for indoor and outdoor use on natural stone decks and pool coping.

Custom Designs

Available in Ceramic or Glass.
 If you can dream it, we can create it!

Shade and size variations are inherent characteristics in all handcrafted ceramic tile products. These variations are a trademark of handcrafted quality and add to the unique beauty of your individual mosaic. Our mosaic tile has passed ASTM C1028 Standard Test Method for resistance to freeze/thaw cycling, and is impervious to normal pool chemicals. We guarantee our mosaics for life.
