

Creating a Baseline Inventory of Sustainable and Organic Agriculture Activity at California's Postsecondary Institutions

**Jane Sooby
May 21, 2014**

Abstract

Of 446 postsecondary institutions evaluated, we found 82 institutions with some level of sustainable food or farming “activity” which, at a minimum, represents a student garden on campus or a single course offering in organic gardening that emphasizes food production. At least sixty-five colleges have a student farm and/or garden that is managed organically or “sustainably.” Twenty-four of these food production sites are located at a community college and 12 at a state university. Nine out of ten University of California campuses have either a farm or garden or both; most of the rest are found at private four-year colleges. We found 16 colleges that offer a sustainable ag-related degree, certificate, or minor.

Introduction

A renaissance of interest in food systems and agricultural production systems outside of the conventional mainstream is being reflected in more colleges and universities offering varying levels of training in these areas. From a campus garden to an Associate's degree program in sustainable urban farming, post-secondary institutions in the state of California are offering a range of spaces and activities for students to learn about food and farming.

This project searched the websites of all 446 post-secondary institutions in the state for evidence of any food and farming related activity and documented all sustainable, organic, ecological, and urban agricultural and food system activities.

This project is a pilot for what is anticipated to be an inventory of alternative agriculture activity at postsecondary institutions nationwide. As such it presents a snapshot of activity that was documented on college websites and in their course catalogs at the end of the 2013 calendar year. Previous inventories of such activity have been collected, including web-based listings of sustainable academic degree programs and student farms maintained by the Sustainable Agriculture Education Association (SAEA), the National Agricultural Library's list of Educational and Training Opportunities in Sustainable Agriculture, the Ceres Trust report “Organic Research and Outreach in the North Central Region – 2014” that focuses on organic activity at regional land grant universities, and three earlier inventories of organic activity in the national land grant system published by the Organic Farming Research Foundation in 2001, 2003, and 2012.

This project is unique in that it took a systematic look at every state-acknowledged institution of higher learning rather than relying on self-reporting or an assessment of a particular sector of them. The primary output is an Excel spreadsheet that contains details on academic programs of study, individual courses, and facilities. This spreadsheet can be searched and organized to highlight any element of interest.

Methods

We undertook a systematic search of the websites of all 446 postsecondary institutions in the state of California for any sustainable, organic, ecological, and urban agricultural and food system activities. Because of the large number of colleges that have multiple campuses, we ended up assessing a total of 837 campuses. Because this is a pilot project that we intend to conduct for every state in the U.S., here is the basic methodology presented as a list of actions that can be replicated by other researchers.

1. Develop list of institutions in the state. For California, we utilized a listing created by the California Postsecondary Education Commission, which maintained a customizable online database of California colleges that was last updated July 20, 2011. (Note: the Commission has been dismantled since due to budget cuts in the state.)
2. Structure an Excel spreadsheet with one tab for each type of institution. In California, there are seven categories of postsecondary institutions (see Table 1).
3. Visit the website of each institution and enter basic descriptive data into the spreadsheet including date of search, link to home webpage, and whether or not any sustainable or organic food or ag-related activity was found. In case activity is found, note program title and details; certificates, degrees, majors, minors, and apprenticeships; student gardens and/or farms and other facilities; courses in urban, sustainable, or organic farming and gardening, organic certification status, markets, research, outreach, contact person or program link, and notes.
4. Systematically search for and review content of academic departments, majors and minors, certificates, emphases and concentrations, centers, and institutions listed on the site.
5. Use search feature to search for the terms “sustainable,” “garden,” “farm,” and “food” as a double check.
6. Document sustainability or campus “green” initiatives.
7. Often, sustainability initiative web pages included a link to a list of courses related to sustainability. These links also were collected into the spreadsheet.
8. Follow-up emails and phone calls were made with instructors at a number of junior (community) colleges with conventional ag programs to make sure that there wasn’t a sustainable program being offered that was not yet on the website.

Table 1. Categories of postsecondary institutions in California, numbers of each, and examples.

Category	Number of institutions in category	Examples
State University System	23	CSU Chico, Humboldt State
Community College System	112	Laney, San Diego City College
University of California	10	UC Merced, UC Davis
Other Public Colleges and Universities	2	Hastings College of the Law
Western Association of Schools and Colleges-Accredited Non-Public Colleges ¹	119 (2-year and 4-year)	Marymount College, Stanford University, Occidental College
State-approved Institutions	180	Institute of Buddhist Studies, DeVry University
total	446	

Source: The California Postsecondary Education Commission, which maintained a customizable online database of California colleges that was last updated July 20, 2011.

¹ The Western Association of Schools and Colleges is recognized as one of six regional associations that accredit public and private schools, colleges, and universities in the United States. <http://www.wascweb.org/>

Results

As we moved from the state-approved and private two-year colleges to four-year institutions—a path that wound its way through the Hubbard College of Administration International to a cluster of Korean Bible colleges in Orange County, into a land of private degree-granting colleges, many of them Christian liberal arts schools and few of which have colleges of agriculture--we found a greater investment in campus sustainability or “green” initiatives (see Table 2).

Larger proportions of sustainable food and farming activity were found in the public institutions, the state and community colleges and the University of California system. A few CA State University campuses are building significant sustainable and organic ag training programs on the edges of an existing traditional ag college—Chico State, Cal Poly San Luis Obispo--though there are a larger number of traditional ag programs in the community college system.

Many community colleges with their emphasis on vocational training offer certificates and two-year Associate’s degrees in job-qualifying areas such as landscaping and horticulture. A number of these programs emphasize sustainable approaches. Almost a third of the community colleges have at a minimum a student garden that is active enough to be mentioned on the college’s website.

A growing number of community colleges offer programs in "green construction," "green business," "sustainable technologies," "sustainable landscaping," or "environmental horticulture" that did not meet our criteria because they were not focused at all on food production but instead on ornamental production or compliance with “green” building codes. There are some interesting trends in this field including sustainable fashion, an emerging field in design that emphasizes using recycled and other “green” materials for making high fashion clothing and interior designs. The community college system could be studied more closely to track emerging trends and responses to the job market.

Table 2. Summary statistics. Note total number of viable campuses = 446-9 closed =437.

Inst. type	Number	% religious	% w/ activity	Total # campuses	% with campus sustainability initiative	% w/farm or garden
Other public	2	0	0/2	2	0	0/2
State-approved*	180	44/172 = 26%	5/172 = 3%	328	0	3/172 = 2%
Accredited non-public 2-year**	11	2/10 = 20%	1/10 = 10%	42	0	1/10 = 10%
Accredited non-public 4-year	108	45/108 = 42%	18/108 = 17%	227	38/108 = 35%	16/108 = 15%
Univ. of CA	10	0	9/10 = 90%	10	10/10 = 100%	9/10 = 90%
CA State Univ.	23	0	15/23 = 65%	28	22/23 = 96%	12/23 = 52%
CA community colleges	112	0	34/112 = 30%	200	38/112 = 34%	24/112 = 26%
Totals	446	91/290	82/437	837	108/437	65/437

* Of these, 8 are closed.

** Of these, 1 is closed.

Of particular interest to sustainable agriculture advocates, students, and educators are programs that offer some type of a credential in sustainable, organic, or urban farming or agriculture. The effort that it takes to develop and present a comprehensive training in modern sustainable food production methods is worth telling students about. More colleges are offering formal credentials in alternative agriculture subjects and we expect this trend to continue its growth in the future as the weakest links in the industrial food system become more apparent and increasing numbers of young people dedicate themselves to building the alternative.

The credential programs in California (see Table 3) range from the revered Apprenticeship in Agroecology at the University of California Santa Cruz that had its roots in the anti-war and ecological movements of the 1970s to a new 6-week sustainable agriculture training in certified organic hydroponics for returning vets at Cal Poly Pomona. Again, the data invite more analysis of topics, trends, types of credentials, curricula, student outcomes, etc.

Table 3. Sustainable, organic, urban, and other alternative agriculture credentials offered in California at the postsecondary level.

Category	Institution Name	Location	Degrees, Majors, Minors, and Certificates Offered
CA Community College	Cabrillo College	Aptos	Alternative Food Production Methods Skills Certificate
CA Community College	College of Marin	Kentfield and Novato	Associate of Science degree in Environmental Landscaping: Landscaping, Organic Farming and Gardening and a Certificate of Achievement in this area. Certificate of Achievement in Environmental Landscaping: Landscape, Organic Farm, and Garden Production
CA Community College	Mt. San Antonio College	Walnut	Associate of Science degree in Integrated Pest Management
CA Community College	Shasta College	Redding	Associate of Science degree in Sustainable Agriculture Science
CA Community College	Sierra College	Rocklin	Associate of Science degree and Certificate of Achievement in Sustainable Agriculture
CA Community College	Merritt College	Oakland	Permaculture Design Certificate of Proficiency
CA Community College	Santa Rosa Junior College	Santa Rosa	Associate of Science degree in Sustainable Agriculture and a Sustainable Agriculture Certificate of Achievement
CA Community College	San Diego City College	San Diego	Associate of Arts degree in Sustainable Urban Agriculture and 3 certificates including Organic Gardening For the Culinary Arts (Certificate of Performance), Urban Gardening (Certificate of Achievement), and Urban Farming Professional Certificate of Achievement (beginning fall 2014)
CA State Univ	California State Polytechnic University, Pomona	Pomona	Veteran's Sustainable Agriculture Training six-week certificate program in partnership with Archi's Acres certified organic farm
CA State Univ	California Polytechnic State University, San Luis Obispo	San Luis Obispo	Sustainable Agriculture minor is offered to all students

Category	Institution Name	Location	Degrees, Majors, Minors, and Certificates Offered
CA State Univ	California State University, Stanislaus	Turlock	Sustainable Agriculture concentration in Agricultural Studies major
private 4-year	Stanford University	Palo Alto	Undergraduate Bachelor of Science in Earth Science offers Sustainable Food and Agriculture track
private 4-year	Santa Clara University	Santa Clara	Applied Ecology concentration in Environmental Science major specifies it can prepare students for career path as agroecologist
private 4-year	Occidental College	Los Angeles	Urban and Environmental Policy major specifically covers food and resource issues
Univ. CA	University of California, Santa Cruz	Santa Cruz	Certificate in Ecological Horticulture
Univ. CA	University of California, Davis	Davis	Bachelor of Science in Sustainable Agriculture and Food Systems; Agroecology is one specialization offered to Master's of Science students in Horticulture and Agronomy; the Agricultural Systems and Environment minor offers a Sustainable Agriculture track

What's next

The project has generated a huge amount of information for one person to absorb and digest. It's clear that numerous spinoff projects are waiting to emerge from this effort. The process of presenting and analyzing these data in journal articles will be greatly enriched by collaborating with others involved in sustainable ag education.

We're close to developing a replicable model that can be used to collect this information in the other 49 states. One process that still needs to be developed is ongoing updates over time. We need to make a realistic assessment of what it would take to track and update data from all 50 states annually. As an initial estimate, one full-time person throughout the year would be needed to maintain cyclic updates and keep the information fresh.

We are continuing to seek an organizational home for this ongoing project as well as a qualified individual to take on the work.

This project has been supported by grants from the Nell Newman Foundation, the Sustainable Agriculture Education Association (SAEA), and the Clif Bar Family Foundation.

California Community Colleges

Institution Name	City	activity?	notes	sust farm or garden?	Degrees/majors/minors/certificates	campus sust initiative?	detail/program title	Facility	Certified organic?	Markets	Courses	Start year	contact
College of Alameda	Alameda	no	Vo Tech school w/some liberal arts; 1 of 4 campuses in Peralta Comm College District			Sustainable Peralta; also there was a plan for a permaculture project that would install student garden by October 2013. Contacts: Tom Branca and President Jackson	follow-up: from Feb. 2012 College Council notes: Academic Senate President Bob Grill reminded that at the January 25, 2012 College Council meeting, the members were introduced to presentations of the Eco System Surface and Permaculture design for College of Alameda. In light of what was presented, Bob Grill introduced the idea of having a community garden on the campus grounds.						
Allan Hancock College	Santa Maria	no	agribiz particularly viticulture and culinary arts programs but no emphasis on sust or organic; "The college offers degrees and certificates in more than 100 areas of study. Allan Hancock College is well-known for its English as a second language program; its professional theatre program"			not yet but seems as if a "campus sustainability committee" is being assembled		The program maintains two practice vineyards, one four-acre outdoor classroom on the Santa Maria that includes a new greenhouse and tractor and vineyard equipment. The other practice vineyard is located in Los Alamos through a partnership with Kendall Jackson.			Viticulture course: AG 130 Integrated Pest Management for Grapes (4 units); Ecology course: Organic and Biodynamic Wine--doesn't appear to be offered any longer		
American River College	Sacramento	no	No, though has hort dept with a sustainable landscape certificate and some sustainable courses offered; one document references certificate in "green design" through interior design dept. but I cannot find this.	public community college granting certificates and associate degrees	Sustainable Landscape Certificate: This certificate provides individuals with a basic horticulture background and specific experience in sustainable landscape installation and maintenance, including the use of eco-landscape principles and practices." One of 7 certificates offered through the Hort Dept.	"Sustainability" is a listed value of the college. Otherwise, no, cannot find on website	http://wserver.arc.losrios.edu/~hort/index.html	follow up			HORT 309 Viticulture-Sustainable Vineyard Management (1 Unit), HORT 320 Sustainable Landscape Construction (3 Units), HORT 321 Sustainable and Ecolandscape Practices (3 Units), HORT 324 Sustainable Landscape Maintenance (3 Units)		Paul MacGowan Phone 916-484-8354, email macgowp@arc.losrios.edu
Antelope Valley College	Lancaster	no	No though do offer environmental hort certificate and associate's degree.	offers associates degrees and career technical programs as well as general ed and basic skills		no							Program Advisement: Dr. Karen Cowell, Dean, 661- 722-6300 extension 6402
Bakersfield College Barstow College	Bakersfield Barstow	no	looks pretty conventional. Offers Environmental Horticulture certificate and associate degrees.	has an agriculture department "The Bakersfield College Agriculture Department first began in 1915 making this one of the first community college agriculture programs in the nation."									Lindsay Ono, professor/faculty chair, Environmental Hort/Agriculture, phone 661-395-4838, email lono@bakersfieldcollege.edu
Cañada College	Redwood City	no		one of the three Colleges of the San Mateo County Community College District	Certificate in Green/Sustainable Design through Interior Design program	no					Cañada is offering a new course in sustainability called "Sustainability: People, Planet & Profits." (2012)		
Cerro Coso Community College	Ridgecrest	no		Cerro Coso Community College, located in the Eastern Sierra region of Southern California offers traditional and online courses and 2 year degrees.		no							
Chabot College	Hayward	no		one of the worst websites in terms of providing info on academics; no master list of degrees and certificates; had to page through college catalogue		no							
Citrus College	Glendora	no		*		yes	http://www.citruscollege.edu/sustainability/Pages/default.aspx						
Columbia College	Sonoma	no				no		child care garden center, chicken coop, recycling and composting projects					
Contra Costa College	San Pablo	no	no though 10-11 notes indicate student garden behind biology building was approved http://www.contracosta.edu/aboutccc/sustain/Shared%20Documents/ACCOMPLISHMENTS%2010-11.aspx			yes but seems perhaps inactive except for transportation survey	note: Automotive Technology program is certified green accdg. to 09-10 notes on sustainability initiative http://www.contracosta.edu/aboutccc/sustain/Shared%20Documents/ACCOMPLISHMENTS%2009-10.aspx						
Cosumnes River College	Sacramento	no		Has an ag dept: "The faculty in this program work closely with the five California agricultural degree offering universities to provide a quality transfer program for students interested in agriculture business, management and economics." Also hort program that has degree/cert in "sustainable" landscaping and water management	A.S.—Sustainable Landscape & Irrigation Systems Design (Hort Dept), Sustainable Landscape and Irrigation Systems Design cert of achievement, Sustainable Irrigation & Water Management Technology cert of proficiency; CERTIFICATE OF PROFICIENCY Green Buildings: Environmental Design, Energy Management and Performance Based Construction (Architecture Dept.)	yes	Aramark food service composts, other efforts mostly around food service and recycling. http://www.campusdish.com/en-US/CSW/LosRios/Sustainability/						Dave Andrews, (916) 691-7551, andrewd@crc.losrios.edu (Hort Dept.); Howard Lewis, (916) 691-7614, lewisjh@crc.losrios.edu (Ag)
Crafton Hills College	Yucaipa	no					sustainability plan						
Cuesta College	San Luis Obispo	no		no but there is a native plant garden			may have sust center but link does not work						
Cypress College	Cypress	no		has a dept. of mortuary science		no							
De Anza College	Cupertino	no				yes, also native plant gardens on campus	http://www.deanza.edu/sustainability/						
Diablo Valley College	Pleasant Hill	no	Pleasant Hill campus has a garden used by the "adaptive horticulture" students. They grow ornamentals and herbs and have a fall bulb sale.	has hort dept. focused on landscaping, arboriculture, and nursery work. http://www.dvc.edu/org/departments/biology/horticulture/		yes	http://www.dvc.edu/events/events/open-garden.htm				Sustainable Water Practices		dvcgarden@dvc.edu or call 925-685-1230, ext. 1554.

California Community Colleges

Institution Name	City	activity?	notes	sust farm or garden?	Degrees/majors/minors/certificates	campus sust initiative?	detail/program title	Facility	Certified organic?	Markets	Courses	Start year	contact
East Los Angeles College	Monterey Park	no			offers Food Protection Manager Certification through community education (extension)	yes	Go Green http://www.elac.edu/gogreen/index.htm						
Evergreen Valley College	San Jose	no				no	food service composts and solar array farm activated in 2012 that generates 30% of campus electricity						
Feather River College	Quincy	no	Feather River College is a public, two year community college. "Bordering Plumas National Forest, the 256-acre campus hosts a variety of wildlife, including a resident deer herd."		offers Associates of Science degree or certificate of completion in general Agriculture; focus on equine studies. Also offers certificate of completion in ranch technology. Offers Hatchery Technician Certificate; has campus fish hatchery. School also has a rodeo and offers courses in rodeo; has equine facility. Equine studies program is unique in the nation	no							
Foothill College	Los Altos Hills		new Science Learning Institute offers a sustainability degree; however, nanotechnology is one of the offered programs		Environmental Horticulture & Design Department offers both an Associate in Science Degree as well as a Certificate of Achievement. "The Foothill College Environmental Horticulture and Design program is particularly well known for the landscape design and construction portions of our curriculum."	yes, many activities and plans but none ag or food related	Center for Sustainable Future--goals include integrating sustainability into the general education curriculum http://www.foothill.edu/sustainability/	sounds as if they have existing garden(s)-call to inquire			short course in HORT 90V Sustainable Organic Gardening (1 unit)		Dan Svenson, Program Director, (650) 949-7402
Fresno City College	Fresno	no	California's first community college		Hort Department	no		Reedley College handles the ag for the district					
Fullerton College	Fullerton	must have gardens at least to supply plant sales	http://horticulture.fullcoll.edu/index.shtml Looks pretty conventional			no							horticulture@fullcoll.edu
Gavilan College	Gilroy	no	has an Aviation Maintenance program; certificate in biotechnology		offered free training in organic gardening for 18-24 year olds in 2010 via CA Green Job Corps. Check to see if this continues	no	"Gavilan College Computer Graphics & Design (CGD) students learned first-hand about sustainable farming practices by visiting the Comstock Community Farm (CCF) in Hollister, CA."						
Golden West College	Huntington Beach	no but there is a native plant garden on campus	"GWC is a two-year, medium sized, college serving just over 10,000 students on a 122-acre campus."		The Environmental Studies program offers an Energy Efficiency/Renewable Energy Program and a Recycling and Resource Management Program.	yes, student sustainability committee.	Most efforts focused on energy. Environmental Sustainability Association - The purpose of this association is to foster multi-disciplinary understandings of sustainability across the GWC campus in support of sound practices, projects, and educational activities.						Advisors: Tom Hersh at ext. 58224 or thersh@gwc.cccd.edu and Marius Cucurny at ext. 52180 or mcucurny@gwc.cccd.edu
Grossmont College	El Cajon	no			Tribal Gaming Certificate of Achievement	no		article on how committed they are to sust in campus expansion w/transit center, xeriscaping, and green building practices https://www.imperial.edu/index.php?option=com_docman&task=doc_view&gid=3650&Itemid=762			AG 142 Introduction to Biofuel Input and Production (3.0)		
Imperial Valley College	Imperial	no	has ag crop science and ag biz mgmt certificate and major options http://www.imperial.edu/courses-and-programs/catalogs-and-schedules/		Established in 2008, the Green Sustainable Education (GSE) Program at Lake Tahoe Community College is a stand alone department, interdisciplinary in nature that prepares students for lifelong roles as productive citizens, critical thinkers, and future change agents. (Does not have ag component.)	no	http://www.ltc.edu/data/Academics2013-2014%20Catalog-rev052913.pdf	community garden features adapted plants and water conservation; also offers gardening classes to public; however food production not emphasized					
Lake Tahoe Community College	South Lake Tahoe	no, not counting demo garden, outreach: http://www.ltc.edu/web/community/lake-tahoe-demonstration-garden	"Opened in 1975, approximately 3,000 students come through the doors each quarter. Beyond the classrooms and labs, the 164-acre wooded campus features a 192-seat black box theater, extensive art labs and a demonstration garden."		Ag degrees emphasize animal husbandry, Horsemanship certificate offered. Hort certificate offered.	no		A 336 sq. ft. All-Season Greenhouse; also rodeo team and A.I./embryo transfer class					
Lassen Community College	Susanville	no--though may have greenhouse for hort program	offers gunsmithing degrees			no							
Long Beach City College	Long Beach	no	recently had to cut 11 programs because of budget			no							
Los Angeles City College	Los Angeles	no				no	LAACD has Green Building Program http://www.laccdbuildsgreen.org/						
Los Angeles Harbor College	Wilmington	no				no							
Pierce College	Woodland Hills	has 200-acre farm on campus but no indication except for language in catalogue that organic or sustainable approach is taught. Well known pre-vet program. Also have cattle and a new equine facility. 1 course offered on Sustainable Pest Control. Otherwise, all conventional. Not counting	"True to its beginnings more than 65 years ago as an agricultural college, Pierce still maintains large sections of tillable and range land preserved as an enclave within a suburban environment. A 226-acre farm spans the west side of campus, featuring an equestrian center and sustaining small herds of cattle, sheep and goats."			1					PLNT SC 830 Sustainable Pest Control 3		Dr. Leland Shapiro, Email: drcows@aol.com , Phone: (818) 710-4254
Los Angeles Southwest College	Los Angeles	no	"LASC is a two-year college that awards associate's degrees in 34 fields and occupational certificates in 47 disciplines."			no							
Los Angeles Trade-Technical College	Los Angeles	no			"Green Workforce Education" includes certificates in hybrid car maintenance and solar installation, however no ag http://college.lattc.edu/green/education-and-training/	yes	Green College Initiative http://college.lattc.edu/green/about-green-college-initiative/						
Los Angeles Valley College	Valley Glen	no but has an urban forest, is a "tree campus" http://www.lavc.edu/trees/index.html	"Los Angeles Valley College is a 2-year public college located in the heart of Los Angeles's San Fernando Valley."		Sustainable Construction Management AS and certificate program	yes	http://www.lavc.edu/gogreen/index.htm						
Los Medanos College	Pittsburg	no, but 1-acre nature reserve				no	http://www.losmedanos.edu/nature/default.aspx	nature reserve featuring native plants. Fertilized by compost made on-site. Strawbale tool shed was also built and water is collected from the roof.

Institution Name	City	activity?	notes	sust farm or garden?	Degrees/majors/minors/certificates	campus sust initiative?	detail/program title	Facility	Certified organic?	Markets	Courses	Start year	contact
Merced College	Merced	though there is an ag division, not finding any organic or sust content	Ag Division offers horseshoeing program!			no		240 acres of cropland used to raise veg, grain, and forage crops as well as seed.			not finding any organic or sustainable in the college catalogue		
MiraCosta College	Oceanside	though they have a hort program it appears to emphasize landscape design, viticulture, and ornamentals, not food production	"MiraCosta's Horticulture Program also includes design, installation and maintenance of landscapes; floriculture; and wine technology." http://www.miracosta.edu/governance/sustainability/index.html			yes http://www.miracosta.edu/governance/sustainability/index.html		"Across the street from the biotechnology facility, a remodeled Horticulture Complex was dedicated in August, 2007. This state-of-the-art, 15,250- square-foot building houses a greenhouse, laboratories and classrooms specifically designed to give students a "hands on" learning experience in the art and science of cultivating plants." Also have their own vineyard.		plant sales	Intro to Sustainable Horticulture (3 units)		
Modesto Junior College	Modesto	not sure; definitely have ag, not sure if any is "sust" or OG. Query emailed to D. Borges 10/3/2013	has an ag division; egg, beef, and heifer sales; dairy, poultry, and swine student clubs		offers A.S. in Dairy Science, Crop Science, and other ag-related fields; not finding any sust or OG	no		"MJC Civic Engagement's Project Green Committee has planned an Earth Day celebration"			Intro to Environmental Horticulture (3 units)		
Moorpark College	Moorpark	no but Env. Science program uses the "s" word and trains photovoltaic technology	has an Exotic Animal Training and Management Program--"America's teaching zoo"			no							
Orange Coast College	Costa Mesa	no.	Offers cert. in Ornamental Hort but not seeing any "s" or "o"					facilities include grounds planted with a large collection of trees, shrubs, ground covers, and vines, a nursery with over 6,000 square feet of greenhouse space and 4,000 square feet of shade structures.					
Oxnard College	Oxnard	no.	there may be a community garden		Coastal Environmental Studies mentions "s"	no							
Palomar College	San Marcos	has an arboretum that is maintained "in as natural a state as possible. Few if any pesticides, fertilizers, herbicides are used in the Garden." However, not for food production. Not counting it as activity	over 200 associate degree and certificate programs; offers 5 botany courses. "sustainable" hits in architecture and interior design; Urban Forestry program			no	http://www.palomar.edu/urbanwood/						
Palo Verde College	Blythe	no				no							
Pasadena City College	Pasadena	no	has sculpture garden			yes	Sustainability Standing Committee						
Berkeley City College	Berkeley	no	has biotech training program but no ag or hort			not finding							
Porterville College	Porterville	may have a vegetable garden	offers an AA in Agriculture Production, looks pretty conventional. GREEN program offers series of workshops to local businesses on environmental regulations			no					http://www.portervillecollege.edu/catalog/13-14/courses/and.html		
Rio Hondo College	Whittier	no	has Hort Dept., looks conventional and focused on landscape design and ornamentals		A.S. in Environmental Science certificate in Horticulture; Sustainability Studies Occupational Skills Award (not quite a certificate); Sustainable Fashion (I)	no	no central effort but lots of use of this language in master plan						
Saddleback College	Mission Viejo	don't think so						greenhouse		plant sale	course in Green and Sustainable Manufacturing Design		
City College of San Francisco	San Francisco	no	Environmental Hort and Retail Floristry programs. Environmental Studies is listed under sustainable degrees. Ocean Campus has Diego Rivera mural. Mission Campus has offset press training--what I took so many years ago.		Noncredit Green and Sustainable Small Business Certificate of Accomplishment. Sustainability Certificate. http://www.ccsf.edu/NEW/en/about-city-college/sustainability/courses_and_programs.html Env hort program focuses on landscape, turfgrass, tree care, nursery, and greenhouse operations--not food production.	yes	http://www.ccsf.edu/NEW/en/about-city-college/sustainability.html	"Superb greenhouse and nursery facilities"			Bio 80C Topics in Biology-- Agroecology (1-3); ENRG 3 Intro to Alternative Energy (3)		
San Joaquin Delta College	Stockton	has ag programs and even a farm plus gardens but not finding any "s" or "o"	seems to be a farm on the Manteca campus. Was a planetarium on the Stockton campus built with a donation from George H. Clever. (Though Board of Trustees voted to defund it in 2012). Also seeing that Mr. (Steve) Stocking was involved in setting up the hort program and botanical garden.		Ag Business A.S. and cert., Ag Mechanics cert., Ag Business Plant Science cert., Ag Business Animal Science cert., Horticulture A.S., Ornamental Horticulture, Landscape Hort., Nursery Management, and Turfgrass cert. programs offered. http://www.deltacollege.edu/div/smith/ornamentalhort.html		Hort Program has student demo garden and botanical garden and nursery on Stockton campus. Campus plant sale. Website last updated in '10. Contact Mike Toscano at (209) 954-5501 or micoscano@deltacollege.edu http://www.deltacollege.edu/dept/publicinfo/prel/2011/SpringatDeltaCollege.html	The College operates an educational farm on 157 acres near Manteca, a forestry field study area of 83 acres near Mountain Ranch. A master planning document indicates part of the farm was being considered for development in 1997. In 2012, Board of Trustees voted to sell a portion of the farm property. 2013 approved budget shows that farm is budgeted slightly higher to reflect increased crop operations and has a healthy fund balance which is planned to be used to support the operation in years with shortfalls..."				Manteca Farm Technician Lynn Sheffield e-mail: lshfield@deltacollege.edu Farm Lab Manager James Burkhard, e-mail: jburkhard@deltacollege.edu Office location: Manteca Farm Phone: 239-5814 Employed with Delta College since 2005	
San Jose City College	San Jose	no	Solar Systems program; annual Day of the Dead celebration			no							
College of San Mateo	San Mateo	no http://sanmateo.patch.com/groups/schools/csm-horticulture-program-ends http://www.smdailyjournal.com/articles/news/2013-10-01/court-stops-demo-of-csm-horticulture-building/1776259.html	has facility with conference rooms and Bayview Dining Room w/ striking views of the Bay Area. Looks like Hort and Floristry programs were recommended for closure in 2012 but faculty requested they be placed on hiatus rather than closure. Again, seems to have been wanted for a parking lot! Not seeing these in lists of academic offerings.			yes	http://collegeofsanmateo.edu/president/index.php/2012/02/college-of-san-mateo-and-sustainability/						
Santa Ana College	Santa Ana	no				not yet celebrated first Earth Day in 2013							
College of the Sequoias	Visalia	has ag program with farm but not seeing any "s" or "o"	Has 500-acre farm at Tulare Center.			no though new building is LEED certified		Farm has beef, sheep, swine and equine species, surgery center for training vet techs, ornamental hort facility, Equine Unit, and welding shop					

California Community Colleges

San Bernardino Valley College	San Bernardino	Yes, Culinary Arts Garden. Also has Biology Gardens that include native species, xeriscape and ancient (primitive) plants	has Culinary Garden which counts as "activity" and Biology Gardens which don't but do not have ag production curricula. The Culinary Garden is associated with the Culinary Arts program. Cannot verify 12/4/13; delete		Judy Jorgensen, Architecture Instructor, (909) 387-1609, email : jjorgens@sbccd.ca.us	yes http://www.valleycollege.edu/about-sbvc/facilities/green	2010 Academic Senate minutes include, "Judy Jorgensen noted the awarding of a grant to construct a Culinary Arts Garden that will supply the program and Sun Room with fresh herbs and vegetables. The Architecture and Welding Arts Dept are already participating in the planning. * Funded with \$10,000 grant from Lowe's of Redlands.					2010		
Santiago Canyon College	Orange	yes	"organic" and sustainable water conservation and "California friendly" garden installed with funds from Metropolitan Water District and maintained by a local non-profit as an educational site for students and the community, however not integrated into curriculum as no hort program is offered		Green-Sustainable Building Code certificate program, though all classes have been temporarily suspended! http://www.sccollege.edu/Departments/CareerEd/greenbldg/Pages/default.aspx	no though some new "sustainable" buildings	http://www.coastkeeper.org/coastkeeper/garden/	has a Water Conservation Demonstration Garden planted to native ornamentals; "unique, sustainable garden"						
Mendocino College	Ukiah		has ag dept but no info on facilities. No use of O or S words		Sustainable Technology Program	no but "The college Sustainability Fair will be an annual event." 2012 article	http://www.mendocino.edu/tc/pg/5810/student_activities.html				2-unit Sustainable Agriculture course; Summer and Fall Vegetable Gardening Practices courses emphasize organic/sustainable production. Intro to Biointensive Mini-Farming course.			
Butte College	Oroville	yes! 85-acre college farm features 17 acres certified organic by CCOF. "We produce hay, seed, vegetables and fruit." Site visit??? Unsure how integrated into curriculum. No specific degree offered	the entire campus is designated as a wildlife refuge		Sustainability Studies Certificate; Has Ag and Environmental Services Instructional Program that includes Environmental Horticulture, Ag Business, and Ag Science degrees and certificates	yes. Features Butte College Green Map. Otherwise, seems mostly focused on energy issues. Effort has received national recognition, https://www.butte.edu/sustainability/							Lyman Hagen, Ag Science, 530-895-2593, hagenly@butte.edu	
Cabrillo College	Aptos	yes. Student farm organic certified since 2008.	broad range of academic offerings including well-known hort program		Alternative Food Production Methods Skills Certificate--17 units. General Hort and Plant Production Associate's degrees and Certificates of Achievement require all 3 organic courses. http://www.cabrillo.edu/publications/catalog/current/departments/hort.pdf Also includes course listings. Appears to be an organic concentration in crop production.	yes, Sustainable Cabrillo http://www.cabrillo.edu/~kgroppi/SustainableCabrillo/; food service recycles and sources local food		nursery building, laboratory classroom, 5 hoop houses, 8,000 ft2 greenhouse complex, 3 shade houses, one of which is used as "staging area for our CCOF organic urban vegetable production" ; botanic gardens, 17,000 ft2 organic farm started by Rich Merrill; "controlled environment" agriculture (hydroponics and aquaponics); various buildings	yes, farm and shade house (verify)	Campus Farm Store sells "Fresh Organic Produce, Hydroponic Vegetables and Landscape Plants specializing in Salvias, CA natives" and other plants. Produce is also sold at Saturday farmers' market on campus, "at Deluxe Market and AJ's Chevron."	Organic Agriculture (3 units); Organic Food Production I (4 units) and II (1 unit); Sustainable Landscaping (4 units); Introduction to Permaculture (3 units)		Doug O'Brien, 831-477-3700, ext. 1389, e-mail: doobrien@cabrillo.edu	
Chaffey College	Rancho Cucamonga	yes	two-year public community college	garden	Environmental Landscaping Dept. offers an A.S. in Env. Landscaping; Landscaping, Organic Farming and Gardening, 18 core units. Certificate of Achievement also offered. Certificate of Achievement also offered in Environmental Landscaping: Landscape, Organic Farm, and Garden Production, 18 units. http://www.marin.edu/Apps/Directory/DegreeSearch.aspx?Letter=Certificate	yes http://www.marin.edu/News/Advertorial-1009.html	Green Earth Movement includes a student community garden. Not sure what is grown there. Some tie-in w/reducing childhood obesity. Also an Earth Day celebration. Not finding any ag or hort coursework. Also finding a Sept. 2008 press release on a demonstration vineyard on 2.5 acres that was harvested and the grapes slated to be processed into wine.					Kipp Preble, 652-6963, kipp.preble@chaffey.edu; For additional information regarding the Chaffey College Agricultural Demonstration Garden, contact Sarah Riley, director of facilities development at sarah.riley@chaffey.edu		
College of Marin	Kentfield	yes	Indian Valley campus in Novato has a 5.8-acre organic farm and garden at their Center for Sustainable Horticulture.		Environmental Landscaping Dept. offers an A.S. in Env. Landscaping; Landscaping, Organic Farming and Gardening, 18 core units. Certificate of Achievement also offered. Certificate of Achievement also offered in Environmental Landscaping: Landscape, Organic Farm, and Garden Production, 18 units. http://www.marin.edu/Apps/Directory/DegreeSearch.aspx?Letter=Certificate	yes http://www.marin.edu/News/Advertorial-1009.html	"The flagship organic farm and teaching garden, launched spring 2009, is a place to grow good soil, food, and farmers." http://www.marin.edu/IVC/organic-farm.html	Indian Valley campus in Novato has a 5.8 acre organic farm and garden at their Center for Sustainable Horticulture.	not sure	farm stand and plant	yes through Environmental Landscaping dept., taught by Wendy Johnson-Rudnick. http://www.marin.edu/Apps/Directory/ProgramProfile.aspx?AcadProgramID=6		Fernando Agudelo-Silva, (415) 457-8811 ext. 8200; Julie Oyle, 415.457.8811 ext 8200, julie.oyle@marin.edu	
College of the Canyons	Santa Clarita	yes, college community garden dedicated in 2012, one of 21 gardens on the two campuses	of note: Water Systems Technology training program; also a Biotechnology certificate program			no but hosting "green up" conference this fall and has an "interdisciplinary Sustainable Development Institute" http://www.canyons.edu/Offices/ISDI/	http://www.canyons.edu/Offices/Foundations/Gardens/							
College of the Desert	Palm Desert	yes, a community garden adjacent to preschool playground	has an ag dept; also a desert naturalist certification			looks as if 2nd campus in Palm Springs is being planned as centerpiece of sustainability								
College of the Redwoods	Eureka	yes	has farm, evidently certified organic. Professor who started farm received Green CA Community College award in 2010. Also Humboldt Botanical Garden is located on Eureka campus.		A.S. Degrees in Agricultural Production, Agriculture, General, and Associates in Liberal Arts in Agriculture	is a college value but not seeing specific program	Ag Enterprise project, students grow crop and split profits with college	63-acre certified organic farm off-campus (Shively). It appears they also have animals there. Goats and turkeys are shown in video on website. (Clarify farm size: 38 acres on website, 63 acres in video.)	yes	students sell veggies on-campus	Intro to Organic/Sustainable Agriculture lecture and lab, Sustainable Vegetable Production		707-599-1338, Noah-Corp@Redwoods.edu	

California Community Colleges

Institution Name	City	activity?	notes	sust farm or garden?	Degrees/majors/minors/certificates	campus sust initiative?	detail/program title	Facility	Certified organic?	Markets	Courses	Start year	contact
College of the Siskiyous	Weed	not sure. Does Sustainable Communities A.S. and certificate qualify? Not specifically ag related. Ecology Club is clearing a garden area and fixing up a greenhouse but these are not integrated into curriculum.	has community garden but not integrated w/curriculum; Sustainable Communities program in Environmental Resources dept.	garden	A.S. and certificate offered in Sustainable Communities http://www.siskiyous.edu/cte/er/sc/index.htm#PRR		One course offered in ecological ag; also horsemanship and horseshoing courses. However no ag degrees or certificates offered.				AG 9061 APPLIED AGRICULTURE AND FOOD SKILLS LAB, 3 units, 2 lecture / 3 lab hours. In this course, students will learn the basic principles of ecological agriculture: how different farming methods affect the soil and climate and how to make compost, plant a garden, harvest, and preserve food. The lecture portion of the course will cover farm policy. The course includes working in the COS greenhouse as well as field trips to local farms, ranches, and commercial kitchens.		
Cuyamaca College	El Cajon	yes. Intergenerational Garden (new) and Sustainable Urban Landscapes program	"the campus' new Intergenerational Garden in Rancho San Diego"; Environmental Hort program has new Sustainable Urban Landscapes certificate		Environmental Hort program offers new Sustainable Urban Landscapes certificate; this is also the name of a 2-unit course http://www.cuyamaca.edu/ohw/ed/cte/certificate-degree.asp#jup8	yes, will count Sustainability Symposium and Green Vendor Fair	http://grossmontcuyamaca.blogspot.com/2013/10/public-invited-to-join-cuyamaca-college.html	"The Intergenerational Garden, started in part with a \$25,000 grant from the county's Health and Human Services Agency, was also made possible with the help of vendors donating their time and equipment and the handwork of students, community volunteers and the California Conservation Corps during the last six months. The garden provides a venue for senior citizens with an interest in gardening to teach good nutrition to preschoolers in the college's Child Development Center, and will eventually include a community garden for the public to enjoy."					
El Camino College	Torrance	yes, community garden at Compton Center	"The college enrolls more than 25,000 students each semester and boasts a curriculum of over 850 highly regarded academic and career programs taught by exceptional faculty." Has Hort Dept.		2-year Environmental Horticulture Science degree offered through Compton Center; also but they offer Environmental Technology training that emphasizes sustainable materials and ecological planning	not finding a formal one yet but it is in the master plan that they should	http://www.elcamino.edu/administration/publicrelations/docs/ComptonGarden.pdf					2003	Natural Science Division Office at (310) 660-3343 or contact Ron LaFond, Environmental Horticulture supervisor at (310) 660-3593 x3359.
Glendale Community College	Glendale	yes, campus garden assoc. w/sust effort but no hort or ag academic programs. Could not verify 12/4/13 so removed from master list.				yes	http://www.glendale.edu/index.aspx?page=3353					2011	
Hartnell College	Salinas	yes--courses in organic production and biz mgmt/systems planning	Ag Business and Technology institute is partnership between Hartnell and local ag community. The Alisal Campus is now the home of Hartnell's new state-of-the-art facility, The Center for Advanced Technology. Programs at Alisal Campus include Agriculture, Agriculture & Industrial Technology, Auto Technology, Sustainable Construction, Computer Science, Drafting & Design Engineering Technology, Food Safety, and Welding Technology. The Alisal Campus also offers a wide range of GE classes, so that students may be able to complete all their course requirements on the same campus.		Offers Agricultural Production major (or certificate?). Conventional approach, but did find some "organic" courses. Offers major and Certificate in Food Safety. "The food safety certificate is a new program at Hartnell that is aimed at complementing both in educational and workforce development. Food safety and quality assurance permeate through all layers of agriculture and food processing. The food safety program was initiated in response to the E. coli outbreak that spread throughout the US. " http://www.hartnell.edu/academics/certificate/certificate.html?code=33	no	also, HARTNELL CENTER FOR SUSTAINABLE DESIGN and the Next Generation of American Builders. Collaboration betw construction industry and Hartnell http://www.hartnell.edu/csc/HCSDC/about.htm			ABT94. Agriculture Enterprise Project (2) ABT101. Organic Vegetable Production (1.5) ABT102. Organic Field Production: Methods (1.5) Lec 1 Hr; Lab 1.5 Hrs ABT103. Agriculture Whole Farm Planning and Recordkeeping for Small Farmers (1.5) ABT104. Agriculture Business Development for New Organic Farmers (1.5) Lec 1 Hr; Lab 1.5 Hrs ABT105. Agriculture Marketing Opportunities and Growth for Organic Farming (1.5) Lec 1 Hr; Lab 1.5 hrs			
Laney College	Oakland	yes, edible garden that produces food for culinary arts students		garden	Green Jobs initiative focuses on solar installation, energy efficiency audits; no ag http://www.laney.edu/wp/igreen/	not really	Sustainable Peralta conference held annually at Laney; also seems to be a big deal about Earth Day http://www.laney.edu/wp/doug_bruce/laney-garden/				Bio 801 Biology of Growing Food		
Merritt College	Oakland	yes	Landscape Hort program offers Permaculture Design certificate of proficiency http://merrittlandhort.com/programs/academic-programs/permaculture-design/			no		fruit orchard, mushroom production, greenhouses, garden beds, etc.			Urban Community Gardening course offered for no credit; also two 3-unit permaculture design courses		Chris Gramp, Chair, Landscape Horticulture Department, cgrampp@peralta.edu
Monterey Peninsula College	Monterey	yes--organic courses	has Ornamental Horticulture dept. http://www.mpc.edu/academics/lifescience/OrnamentalHorticulture/Pages/default.aspx					"we have a fairly good sized greenhouse that is sustained as organically as possible. We grow ornamental plants mostly in it, and in the nursery next to it that has one and five gallon plants in it. We also maintain the landscaped areas around the Life Sciences Building, the greenhouse and nursery. We rarely use any types of pesticides, but occasionally use 'Round Up' to kill weeds in the landscape." From Cathy Haas email 10-3-13			Organic Vegetable Gardening (1 unit) and Organic Gardening (2 units) offered		Cathy Haas, CHAAS@mpc.edu
Mt. San Antonio College	Walnut	pretty strong ornamental hort program but no use of the "s" word or organic			A.S. in Integrated Pest Management http://www.mtsac.edu/horticulture/IPM%20AS%20Degree%20Requirement.pdf			Horticulture Unit has a 10 acre wholesale production nursery. "We mainly produce large tropicals and palms, but we also produce limited supplies of perennials and houseplants."					
Mt. San Jacinto College	San Jacinto	Eco Club--student club, may be starting community garden. http://www.msjc.edu/EnvironmentalStudies/Pages/EcoClub.aspx	offers A.S. and certificates in Turf & Landscape Management http://www.msjc.edu/InstructionalPrograms/Documents/1314/TurfLandscapeManagement.pdf		Offers certificates in Sustainable Energy, Solar Photovoltaic Technology, Solar Thermal Technology, Small Wind Energy Technology or Green Collar Manufacturing. Students can also obtain associate degrees in Environmental Studies with an emphasis on water and soil technologies, environmental engineering, ecology or conversation [sic] biology.	Eco Club	also offers Viticulture, Enology and Winery Technology Concentration						Eco Club adviser, Nick Reeves, at nreeves@msjc.edu
