1. Remove the yellow film from the back of each pad.

2. Stick the pads to the back of the reservoirs bracket. Make sure the screw holes one the bracket line up with the holes on the pads.

3. The reservoir has three G1/4" ports on the base. All of these can be used as either an inlet or outlet. Attach the hose fittings to your ports of choice.

4. The fill cap can also be used as an inlet with the use of a M20 to G1/4" adapter. The fill cap cannot be used as an outlet.

5. Place the o-ring over the LED and push it into the hole on the base of the reservoir.

6. To mount the reservoir you will need to drill four holes onto a case panel. You can then attach the reservoir by using the four supplied M4 screws.

Box Contents:
- 1x Tube Reservoir
- 1x M20 Cap
- 1x G1/4" Plug
- 2x Adhesive Pad
- 1x 5mm White LED
- 1x LED O-Ring
- 4x M4 Screw

Technical Details:
- Tube Material: Glass
- Cap Material: Acetal
- Bracket Material: Aluminium
- 170 Dimensions: 170 x 75 x 75mm
- 270 Dimensions: 270 x 75 x 75mm
- 170 Capacity: 410ml
- 270 Capacity: 690ml
- Fill cap size: M20
- 3x G1/4" Ports
- 1x 5mm LED Hole
