

A couple last minute items:

1. Each school gets one, 6 person team with 4 counting scores.
2. Team activity will be scored just like last year (keep/cull 50 points, video marketing 25 points and genetic scenarios 25 points).
3. Five folks from Texas A & M will select classes, officiate and take reasons. We will have five reasons groups so the 6th person on each team will be randomly assigned to a each group. Many teams do not have 6 persons.
4. Top 20 teams are invited to do reasons although any team and/or individual may stay and give reasons. Top 20 will be announced after all placing classes scored and entered.
5. A print out will be made available to allow each adviser to verify all placing cards during the oral reasons section of the event. Cards are to remain on the table, any changes should be brought to the scorers table. Please be available during reasons to check your entries. The ladies will make about 2000 data entries to score the event so even at 99% accuracy means there will potentially be 20 errors. A complete printout will be made available to verify accuracy of all tests, reasons and team scores as well before results are announced.
6. Each school listed below will be signed up for 7 lunches (6 for the team and one for the teacher) and thus will owe \$35 to Medical Lake FFA due by check or cash. Any changes to the number of lunches should be confirmed with Jenny Wagner of Medical Lake FFA.

If I have any other additions I'll get them out as soon as I think of them!

Thanks
Glen
