Attendees can expect to learn:

- Simple variations on standard prep design to improve contacts in class 2 composites
- Learn the benefits of injection molding composite
- Incorporate the cosmetic advantages of the infinite margin
- Techniques for improving the complex composite
- Learn margin elevation technique
- Understand the advantages of the saucer prep for class 2 composites
- Eliminate Stained margins
- Closing black triangles
- Composite crowns

Location:

UNE College of Dental Medicine Preclinic, Portland, ME

BIOGRAPHIC SKETCH

David Pier received his DMD degree from Fairleigh Dickenson University in 1983. After a one year residency he moved to Rockport Maine to join Glen Cove Dental Associates where he learned what high quality dentistry looked like. After almost twenty years with Dr's Bill Barbour, Michael Dougherty, Deborah Endl, and Michael Hersom; David opened Mount Pleasant Dental Care in 2004 to become his outlet for ideas of, as Tony Robbins would call it - Continuing And Never Ending Improvement.

Dr. Pier has a passion for continuing education averaging over 100 hours of CE annually. In addition to countless one-day courses and conventions, this passion lead him to complete the Dawson Academy series, the Piper series, the Spear hotel courses, the complete Kois Continuum where in 2012 he became the first graduate from Maine, and recently became the first dentist in Maine to be certified in the BioClear method for advanced composite dentistry. David is an assistant professor at University of New England, College of Dental Medicine, a member of the Seattle Study Club, Dental Organization for Conscious Sedation, International College of Oral Implantologists, American Academy of Cosmetic Dentistry, International College of Dentists, Pierre Fauchard Academy, Christian Medical Dental Association, and of course Academy of General Dentistry and American Dental Association.

He has taught courses throughout the US on topics of leadership skills, communication in dentistry, team building skills, and more; including being a lead presenter of Dental Boot Kamps, CEO Team, and The Trust-Based Practice.

David lives in Rockland with his wife of 36 years, Karen. He is the father of three sons, one of which is a recent graduate of NYU Dental School, two daughters-in-law and one beautiful baby granddaughter. He is a member of Rockland Congregational Church where he is often asked to present sermons when the pastor is not available. He enjoys skiing, sailing, hiking, tennis, reading, and striving for excellence.
