**Aligning CDI Performance Metrics:
When CMI and Quality Metrics are Misaligned**
April 11, 2017 12:00pm EDT

Today's Presenters

Wayne Little

Partner, DHG Healthcare

- Wayne is a part of the DHG Healthcare's CDS team with over 25 years of experience in healthcare finance.
- Wayne is a guest speaker/presenter for numerous healthcare industry forums and webcasts covering topics including ICD-10 preparedness, Revenue Cycle performance improvement, Bundled Payment initiatives, fraud and abuse and etc.

Michelle Wieczorek

Senior Manager, DHG Healthcare

- Michelle is a part of DHG Healthcare's CDS team and focuses on clinical documentation and revenue integrity initiatives.
- She is a Registered Nurse, Registered Health Information Technician and Certified Professional in Healthcare Quality with over 30 years of experience in healthcare.

Cheryl Ericson

Manager, DHG Healthcare

- Cheryl is the newest member of DHG Healthcare's CDS team with over 25 years of experience in healthcare.
- She is a Registered Nurse and Certified as a Clinical Documentation Improvement Specialists and Clinical Documentation Improvement Practitioner.

Objectives

- At the conclusion of this session participants will be able to:
 - Articulate strategies CDI departments can employ to better reflect patient acuity and validate measure cohorts
 - Understand the impact of risk adjustment on quality-based reimbursements and how legacy CDI efforts fall short
 - Analyze the impact of changing healthcare reimbursement methodologies on the role of CDI within healthcare organizations
 - Examine the need for revised CDI performance metrics that reflect both financial and clinical imperatives within coded data
