MSMS LAB WORKSHOPS FOR SCIENCE TEACHERS

The Mississippi School for Mathematics and Science is pleased to offer the state of Mississippi's only LAB-BASED workshop for middle and high school teachers!

MSMS is home to some of the country's best and most cutting-edge science educators. All MSMS faculty members hold at least a Master's degree in their subject areas or above, and all are multi-year veterans of lab-based classrooms. For nearly 30 years, MSMS has been a national leader in STEM education. Now, the faculty of MSMS wishes to share their expertise and experience with science teachers from all corners of the Magnolia State.

- **When:** June 5-9
- **Where:** The campus of the Mississippi School for Mathematics and Science in Columbus, Mississippi.
- Eight different LAB-BASED workshops are available.
- CEU's are also available and included in the registration fee.
- Each five-day, three hour session is \$500 or \$750 for two sessions.
- Room and board is available for an additional fee. Contact MSMS for details.

Participants will learn how to design simple and cost-effective labs for middle and high school students in the fields of chemistry, biology,

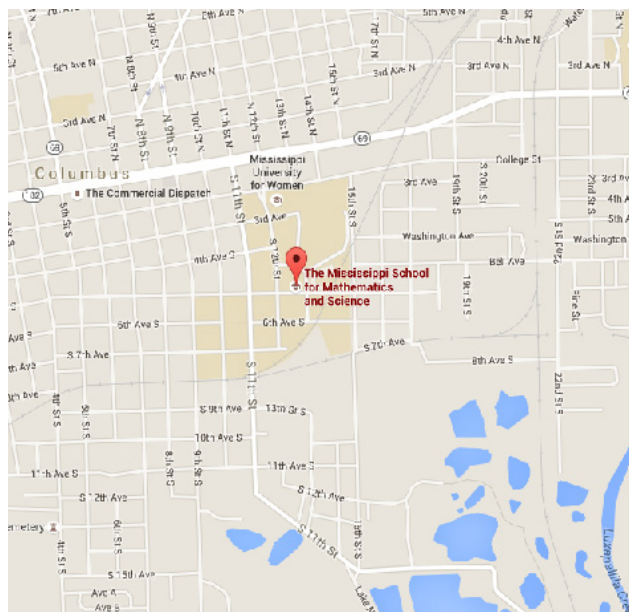

physics, and computer science that will enrich and enhance the instruction of the participants' students.

During the course of the workshops, teachers will learn lab designs and techniques that will:

- **Provide meaningful, inquiry-based experiments.**
- **Reinforce laboratory skills, data collection, and analysis.**
- **Adapt to all student levels; from lab beginners to advanced students.**
- **Align to the College and Career Readiness Standards.**
- **Use affordable and readily available supplies.**
- **Teachers may choose up to two sessions to attend, and may focus upon one subject or mix and match subject areas.**

You may register for sessions online at www.themsms.org/scienceworkshops or by contacting MSMS Director for Academic Affairs Kelly Brown at 1-800-400-4656 or by emailing kbrown@themsms.org

Please make checks payable to: MSMS
