

Three-Wall Court Work Day

By Bob Burkitt

The weather cooperated on Saturday morning May 30th and a good turnout of volunteers made the annual work day at Veterans Park a success. Major projects included repairing the seasonal spalls in the concrete court floors, tidying up the netting on the back fence and repainting the court lines, all of which were completed. Some volunteer vegetation was also removed so everything is in top shape for the Bob Caples Three-Wall event on June 13th and 14th.

Relocation of the adjacent soccer field fence eliminated the use of a large tent so Scott Walker and Bob Bardeau designed and built a new temporary shelter that should do the job. The new tent structure was erected, dismantled and stored until the tournament, it looks like a winner and will provide welcome shelter from sun and rain.

Entertainment was provided by a practice match between Scott Walker and Marty Clemens on the Glenn Laque Challenge Court as it did not require repairs.

Thanks to all who participated, volunteers are what make the GCHA such a success.
