

The Dry Eye Compress is clinically shown to improve tear layer function

faq's (continued)

Can't I just buy fish oil at the drugstore?

In 2011 nine name brand "drugstore" fish oils were found to contain levels of plasticizers (PCB's), a known carcinogen, that exceeded safe levels by up to 10 times according to the state of California.^{3,4} Also, using "drugstore" fish oil would require at least 10 pills a day to achieve the 2,400mg of Omega-3 needed to treat Dry Eye Syndrome.

Why do I need Vitamin D and B12?

In recent clinical studies those with the highest levels of Vitamin D3 and B12 had a 59% decreased risk of developing Macular Degeneration — the leading cause of blindness.^{5,6}

What is the Dry Eye Compress?

The Dry Eye Compress is recommended by clinicians to provide deep penetrating moist heat therapy.

The Dry Eye Compress helps treat:

- Dry Eye Syndrome
- Meibomian Gland Dysfunction
- TMJ
- Sinus pressure, tension and stress
- Conjunctivitis
- Sty

Antimicrobial, and lasts for years The Dry Eye Compress will not support bacteria or fungi growth. Unlike grain and seed products, the compress is hand-washable and can be used daily for years.

How do you use the Dry Eye Compress?

20-30 seconds in the microwave delivers moist, therapeutic heat. Wear for 3-5 minutes to improve tear layers and Meibomian Gland function — key contributors to chronic Dry Eye Syndrome.

These statements have not been reviewed by the FDA, these products are not intended to treat, cure or prevent any disease.

Use HOT or Cold!

The Dry Eye Compress features Hydro Heat Technology™, which absorbs moisture from the air and releases it as clean, deep-penetrating, moist heat. The Dry Eye Compress is safe, effective and convenient:

- No added water needed
- Just 5 minutes a day!
- Put in the freezer to treat swollen, puffy eyes
- All natural Hydro Heat™ — no chemicals
- Washable and reusable for years
- No additional parts needed

Better Together

Using the Dry Eye Compress and Ultra Dry Eye TG daily brings instant relief to dry itchy eyes and is guaranteed to improve dry eyes in 30 days*

1. Ultra Dry Eye Compress

- Just 5 minutes a day

2. Ultra Dry Eye TG

- Just 3 a day

frequently asked questions

What is dry eye? Dry eye occurs when we don't produce enough tears to keep our eyes healthy and comfortable. The symptoms include: itching, excessive watering, a feeling of burning in the eyes, increased sensitivity to light, wind, dry air or smoke.

Dry Eye Syndrome, if left untreated, can lead to blurry vision and loss of vision.

What causes dry eye?

- A dry, windy climate, smoke and air conditioning
- Aging, menopause
- Diabetes, herpes zoster and auto immune diseases like lupus and rheumatoid arthritis
- Wearing contact lenses and eye surgery such as LASIK

How common is dry eye? Approximately 1 out of 5 American adults suffer from dry eye.

What is Ultra Dry Eye TG?

Ultra Dry Eye TG utilizes the most potent Omega-3 available in the natural triglyceride (TG) form to conveniently and effectively treat dry eye. Also available in easy to swallow mini softgels!

Easy to swallow mini-soft gels available.

How do I know that Ultra Dry Eye TG works?

Over 80% of dry eye patients were asymptomatic and 100% showed improvement after taking Ultra Dry Eye TG for 30 days in a recent study.¹

I've tried to take fish oil but I couldn't stand the "fish burps." How is Ultra Dry Eye TG different?

Ultra Dry Eye TG Omega-3 is in the triglyceride molecular (TG) form, — it absorbs directly through the small intestine into the blood stream — this gives it superior bio-absorption and no fish burps guaranteed!

Is it true that some fish oils are an alcohol?

Yes. The majority of fish oils are an ethyl ester (EE) alcohol — which can only be absorbed through the liver. Due to this inefficient absorption EE fish oil loses 60% of its potency in digestion and it causes the "fish burps."²

How do I know that OcuSci products don't contain contaminants? Our products are independently tested and certified free of contaminants by lot and the results are published at SafeChek.org.

All fish oils are not created equal

- No fish burps guaranteed!
- Natural triglyceride form = 70% better bio-absorption
- Tested & certified free of contaminants
- Sourced from highly sustainable fisheries: wild caught Nordic sardines and anchovies
- Guaranteed to improve Dry Eye symptoms in 30 days*.

"My patients typically see drastic improvement in just 30 days with Ultra Dry Eye TG."

— R. ANTHONY HUTCHINSON, O.D.
ENCINITAS, CA

The Ultimate Omega's for Eye Health

Ultra Dry Eye TG

Clinically proven to treat dry eye

- 2,430mg triglyceride Omega-3
- 2,145mg EPA/DHA
- Available in mini-softgels

Ultra Dry Eye TG with Vision Guard

- 2,430mg triglyceride Omega-3
- 2,145mg EPA/DHA
- 3,000IU Vitamin D3
- 849% DV Vitamin B12 (methylated)
- Easy to Swallow, mini-softgels

OmegaTG-3 Heart and Vision

- 810mg triglyceride Omega-3
- 715mg EPA/DHA
- 1,000IU Vitamin D3
- 283% DV Vitamin B12 (methylated)
- Easy to swallow mini-softgels

Clinically proven to improve dry eye symptoms in 30 days
