Here's where you can really go nuts!
Get all of your supplies out - buttons, felt, pipe cleaners, yarn, pom poms, glue, fake fur, fabric, whatever you've got!!!

Felt pieces can be cut and collared together then sewn or glued on. Felt shapes can be cut out and sewn on to create hands, feet, a tail, tentacles, boots, etc.

Making a sock monster is a lot of work and fun!

Keep going until your monster looks monstrous. Then you're done.

Congratulations, you are now officially a monster-maker!

Please take good care of your monster. Don't forget to feed it. Beware: sock monsters tend to spontaneously multiply...
