EDITING

IMPORT AND CREATE YOUR MUSIC VIDEO
1. First, tap Select Project
2. Next, tap Create New Movie
3. Now, scroll your clip all the way to the beginning

ADDING YOUR SONG
Since the song we recorded in the background isn’t very loud here is how to add in the music you want:
1. First, tap on the movie clip so that it is outlined in yellow and gives you some choices at the bottom of the screen
2. Click on the word Detach Audio
3. Click on the Audio Clip (the one on the bottom) so that it is outlined in yellow and click the trash button

Let’s add your song!
1. Click the plus sign in the upper right hand corner
2. Now, click on Audio which is the bottom right hand corner of the menu
3. Next click Playlists
4. And click on the ROCK THE LIBRARY playlist
5. Now find and click on the song you just danced to then tap the USE button
IF YOU WANT YOUR MUSIC TO BEGIN SOMEWHERE ELSE:
1. Tap on the song you just added and find where you want the song to begin
2. When you have where you want it to start make sure it is under the white line
3. Next click split
4. Delete the first part of the song by tapping that clip and then tapping the trash button

HOW TO ADD A TITLE
1. Click on the video clip
2. On the bottom menu tap Titles
3. Type in your title
4. Scroll to where you want your title to end, click on the scissors icon, and then tap the split button

ADDING A FILTER
This changes the colors and style of your music video
1. Click on the video clip
2. Click Filters on the bottom menu
3. Tap on the filter you want to use
4. Next, tap on a blank part of the screen to keep the filter you want

FADE IN FROM BLACK / OUT TO BLACK
1. Click on the settings option (this icon) in the upper right hand corner
2. Switch on Fade in from black, or Fade out to black, or both!

FINISHING YOUR VIDEO
When your done editing your video click done in the left hand corner and then the share button
