

**Miratec Systems® Printed Sign Face
With PureColor Technology™
Limited Warranty**

Miratec Systems warrants to you, our customer, that a Miratec Systems® Printed Sign Face (either flexible or vinyl) with PureColor Technology™ will remain in Good Advertising Condition, when viewed at a Normal Viewing Distance, for a period of up to seven (7) years from the Date of Manufacture subject to the terms & conditions below.

Normal Viewing Distance is defined as a distance measured out from the base of the sign equal to the distance from the ground to the top of the sign face times two (2) with a minimum of 20'.

This warranty applies to a sign face erected not more than 10 degrees (+/-) from a 90 degree vertical line.

Date of Manufacture is established by a label printed or placed on the printed sign face. That label will indicate the Date of Manufacture. Obliteration or removal of this indication may invalidate this warranty. In the absence of that label customer must provide proof of purchase date.

Cleaning & reasonable maintenance of the sign face is required under this warranty to eliminate the negative effects of environmental conditions. Mild soap & water is the only approved cleaning method & evidence of the use of harsh chemicals or high pressure cleaning apparatus will invalidate this warranty.

Good Advertising Condition means that the sign face shall not evidence yellowing or color degradation to the extent that it is ineffective for its original intended purpose for the period of the warranty. Minimal color loss, degradation of gloss, reductions in contrast & minor loss of whiteness in the non-decorated areas are a result of normal weathering & do not constitute failure of the sign face under this warranty.

Miratec Systems will replace, in the event of failure of the warranted sign face, as defined above, & upon return of the sign face to us as follows: 100% of the original price of the warranted sign face will be applied (on a not-to-exceed basis) to the purchase at the then current price for an identical sign face for a period of 24 months if the printed sign face was manufactured by Miratec Systems without any protective over-laminate film.

If a Standard protective over-laminate film was applied by Miratec Systems during the manufacturing process the sign face will be warranted, as above, for a total of 60 months.

If a Premium protective over-laminate film was applied by Miratec Systems during the manufacturing process the sign face will be warranted, as above, for a total of 84 months.

Sign faces will be replaced as outlined above in all areas of the U.S. or Canada except for the U.S. "Desert Southwest" defined as Arizona, New Mexico & the desert areas of California, Nevada, Utah & Texas. Sign faces installed in these areas shall have the full warranty period reduced by 30%.

The above warranty is made in lieu of all other express or implied warranties, including any implied warranty of merchantability or fitness for a particular purpose.
