

WILLIAM SCOTHERN
Camera Operator / Editor

SUMMARY

I have a 1st Class Honours degree from London Metropolitan University in Creative Writing and Film Studies, as well as an MA in Film from the Newport Film School in Wales. I started in post and worked my way through companies such as Avalon Television, and ITN Productions before going freelance.

I am a London based filmmaker, with experience in camera operating, editing, and directing. I own a complete shooting kit with everything from my Sony FS5, to a selection of lights, and sound equipment. My main post-production skills include the use of Avid Media Composer/Adobe Premiere Pro in both Media Management or storytelling, and DaVinci Resolve for conforming/exporting/basic grading. You can find my showreel as well as other videos on my website: williamscothern.com

I have extremely high standards when it comes to my work as I am incredibly passionate about all aspects of production. As such, I've been proud to say that the majority of my work comes through referrals by clients and colleagues alike.
