

Registration Updates for 2018 Convention

The updates to our registration this year that will be helpful or notable for you are listed below. The registration tutorial videos show the step-by-step process for registering your group, but they have not been updated to include these few things.

- On the Group Registration page, there is an option to indicate if your group will be arriving together and checking in as a group or arriving separately and checking in individually. For Nashville groups, the group check-in is standard on Thursday and Friday, so please mark Group.
- For groups that need to know the amount charged for each specific attendee for registration and t-shirts, when applicable, there is a new report that shows that detail. On the main menu, click on Reports, then click the Group/Attendee tab. In the Attendee section, there is a new report called Attendee Fee Detail Report that will list each person and their total fees.
- In Mass Media, the Audio and Video Presentation categories have been separated back out by male and female. Registration for the categories has not changed. The system will automatically place them in the right category for having the boys' and girls' entries judged separately.
