

## Your Cultural Awareness Checklist

So glad to see you here. As you know there so many pieces of information out there and it can be hard to find exactly what you need so I took the time to go through a lot of the information and came up with this curated list! So glad you are committing to be more culturally aware. I tried to put something for every style of learning here.

### Programs

- [Society for Intercultural Education, Training and Research](#): The mission of SIETAR USA is to promote and facilitate intercultural education, training and research through professional interchange
- [Cultural Intelligence Center](#): They provide research-based, innovative solutions for assessing, predicting, and improving cultural intelligence (CQ)
- [Cultural Detective](#): Cultural Detective is an extremely useful tool for those committed to developing intercultural competence. Why is it so effective? Learners are suitably challenged at every stage of their cultural-competency development. It is an excellent choice to use with mixed groups of learners at various stages of development.
- [Argonaut](#): Teaches you how to succeed internationally. They provide online solutions for the development of intercultural competence, and being the best in the world at that. They have been pioneers in this field since 2002, and are now firmly established as the leading cultural assessment and learning platform, recognised by universities, major corporations, NGOs and renowned public institutions across the world.
- [Cross Cultural Solutions](#): Excellence is a driving mantra for Cross-Cultural Solutions. First and foremost, the CCS model produces real difference for developing communities and empowers local home grown non-profits, fostering sustainability. CCS holds itself accountable to measures, feedback, and transparency standards. Their program is a fantastic "on ramp" to Peace Corps, public service or creating one's own social enterprise for global results.
- [The Culture Mastery](#): They build bridges between corporate and national cultures. Essentially, expanding the horizon of global leaders. Their motto is "only when you master the transition between cultures will you be successful in global business."

### Organizations that make you feel at home anywhere in the world

- [InterNations](#): Their motto is "connecting global minds" and that's exactly what they do. I have met some great friends with this organization
- [Meetup](#): Meetup brings people together in thousands of cities to do more of what they want to do in life. It is organized around one simple idea: when we get together and do the things that matter to us, we're at our best. And that's what Meetup does. It brings people together to do, explore, teach and learn the things that help them come alive.
