

The *Walk by Faith* vision is to “build confidence in people to be active in the life and mission of the Church in the 21st century by fostering personal and spiritual formation, deepening understanding of Church teaching and Scripture and integrating this with life experience.

10 May 2016

Dear Walk by Faith Alumni,

I am writing this letter to you on a beautiful Dunedin day! Following up on my first letter to our Alumni group that I sent out in February, I want to let you know how the programme is developing and how new incentives to enhance the learning for the participants is progressing.

The national Walk by Faith group is still working through the major rewrite of the programme. This is an ongoing project which is continuing to develop. Three new groups have begun with the new programme. There are two groups in Dunedin and one group in Oamaru. I am hoping groups will begin in other areas of the diocese.

I have continued to work on the Webpage for Walk by Faith. I have created a folder which is located on the banner on the main page of the Diocesan website. Under this folder are the following pages:

- Welcome
- What is WBF?
- Course Content
- Resources
- Testimonials
- Photos
- WBF Alumni
- Enrolment & Contact details

Under the resource page I have created a WBF YouTube channel where I have uploaded different videos from speakers covering a variety of topics which we will use in the WBF programme.

I have also created links to Prayer sites, Scripture, Catholic Social Teaching, Ethics, and Podcasts. The Podcasts are from two universities in the United States. The first university is the Catholic Theological Union and the second is Creighton University. Both podcasts have different scholars talking about different topics from Scripture, Ethics, Spirituality, Catholic Social Teaching etc.

If you would like to help tutor or run a group in your parish, please get in touch with me.

Please spread the word!

If you wish to be taken of the email list, please let me know.

Blessings,

Sr Anna rsm
