

UNDERSTANDING THE INCOSE CERTIFICATION PROCESS

Recording of previous on-line webinar - Watch at your convenience!

Sure obtaining a SEP designation is hard, which is why you put it off for so long. However, it is critical to advancing your career. There's no better way to start than by learning all about the INCOSE Certification Process! This should be your first step down the road of getting that SEP Certification.

SE Scholar, LLC is pleased to the availability of the video of our last FREE webinar that covered:

- What is INCOSE?
- What is the INCOSE Certification Process?
- Differences between ASEP/CSEP/ESEP
- Detailed Qualification Requirements for the CSEP
- How to fill out the CSEP Application effectively
- Relating your experience to the 14 SE Work Areas
- Making sure your Experience Matrix matches your Position Descriptions
- Tips for interacting with potential References
- Learn the 3 step process to Certification Success

Example of recorded webinar.

This free course also gives you a chance to see what tools we use to deliver our [SEP Exam Preparation Course](#) -- you'll see a how we deliver recorded lectures and experience our on-line classroom within Canvas. This really gives you a real "try before you buy" experience.

Your on-line instructor will be Paul Martin, *ESEP*, who started **SE Scholar, LLC** several years ago. He is a practicing Systems Engineer with over 35 years of experience. He has been everything from a Product Engineer for General Electric Products Division to a Software Systems Engineer for a multi-million dollar Navy program. Presently he's working for a "Beltway Bandit" supporting a Local Government Agency.

Paul has a unique and passionate style that keeps students interest at a high level. He's been teaching ASEP/CSEP Exam Preparation Courses since 2009 and has taught several hundred students.
