To Whom It May Concern:

We are writing this letter of recommendation on behalf of Sarah Harper of H Design. It has been a pleasure working with Sarah on our first home! She was professional, yet approachable, and she took the time to explain each and every step of her work so that we could understand the whole process.

As first time home buyers, a complete home renovation project was quite the undertaking, but Sarah was able to jump into our lives and effortlessly design the home of our dreams! She was extremely responsive to our brief descriptions of what we would like to see in our home, and her keen eye for modern design with a nod to the classic craftsman style restored our craftsman home to beyond its former glory. Her designs were efficient and detailed, and she gave us the flexibility to splurge or be as cost effective as we wanted. As young professionals, working with Sarah was a breeze because she was so flexible and able to meet with us anytime that fit our crazy work schedules.

Most importantly, we believe Sarah is a great listener and excellent communicator. Between speaking with Sarah and several general contractors bidding on a project, she always picked up on design choices that were important to us—with an eye towards staying on budget. Anytime our general contractor or the workers would wonder off course, she would bring everyone back on the same page by making sure that we were part of the important design and functionality choices in our house. Having to completely gut and rebuild most of our home, it is now an honor for us to own a house designed by Sarah.

Sincerely,

Tim Craddock and Tiffany Au
