

Water in Weather

Activity designed to demonstrate their knowledge and understanding of the forms of precipitation (rain, snow, hail, sleet, water vapor) and its connected state of water (solid, liquid, gas).

Students may either cut and paste the illustrations or they may draw the pictures themselves.

Georgia Performance Standards

S1E2. Students will observe and record changes in water as it relates to weather.

b. Identify forms of precipitation such as rain, snow, sleet, and hailstones as either solid (ice) or liquid (water).

Water in Weather

Solid

Liquid

Rain

Snow

Sleet

Hail

Discuss which state the water is in for each weather type. Cut and paste the pictures in the correct box.
