

## Changes in the Pacific

The Pacific Ocean changes constantly between three states – “normal” years, El Nino, and La Nina. Research the effects of these states, and organize your data below.

	“Normal” years	El Nino Years	La Nina Years
What is going on with the ocean and the trade winds?			
Effects on upwelling. Explain.			
Effects on South America. Explain.			
Effects on the United States. Explain.			
Effects on Asia & Australia. Explain.
