

# NORTH ROYALTON HIGH SCHOOL STADIUM

NORTH ROYALTON, OHIO

## CONSTRUCTION COST:

*\$4.0 Million*

## CLIENT REPRESENTATIVE:

*North Royalton City Schools  
Jim Presot, Assistant Superintendent  
440.582.9034*

We worked with MKC Associates to develop a full stadium replacement plan that included:

- Synthetic turf field (football, soccer, lacrosse)
- 8-lane, 400M polyurethane all-weather track and field events
- Field lighting
- 3000-seat home and 2000-seat visitor bleachers
- Press box with full media platform
- Home concession / restroom facility, including ticket and school booster booths
- Visitor concession / restroom facility
- North and South pedestrian entry plaza

The design team navigated the project through significant challenges, including a 60' elevation change, bioretention in a highly-impervious site, and meeting the project's aggressive design and construction schedule.
