Re: MXD Zoning Petition – Cambridge Redevelopment Authority

To Cambridge City Council,

It is the pleasure of the Margaret Fuller House to express our gratitude for the work that Boston Properties has done within our community and with the Margaret Fuller House.

The Margaret Fuller House works to address the inequities that impact that lives of the Port / Area IV residents. Over the course of the last several years Boston Properties has made significant contributions to our organization in the form of cash donations and other in kind improvements. The in kind work has greatly improved our parking facilities, infrastructure, landscaping, playground and daycare facilities. In addition to the significant improvements to the facilities, Boston Properties continues to provide significant support for our fundraising and operating budgets. We estimate the value of Boston Properties contributions over the last several years has been in excess of \$250,000.

We place great importance on our relationship with Boston Properties and their role within our community. We look forward to their continued support.

Regards,

Barbara Kibler
