10/19/2016

Manufacturer	Model	Processor Type	Console	240p Compatibility Test	240p Processing Test	Note/Comments
AVerMedia	ET113	HDMI Converter	SNES & Genesis	FAIL	-	
HDCVT	HDV-336A	HDMI Upscaler	SNES & Genesis	FAIL	-	
Key Digital	KD-VP6	YPbPr Line Doubler	Genesis/Nomad	PASS	FAIL*	User selectable output between 480i & 480p. 480i output is passthrough. 480p output does not display processing artifacts, but creates a constant vertical jumpiness in the output image. 480p output also has improper black levels. Also has a ground loop issue (rolling horizontal bars).
Key Digital	KD-VP8	YPbPr Line Doubler	Genesis/Nomad	PASS	FAIL*	User selectable output between 480i & 480p. Colors look "washed out" in both modes. 480i output is passthrough. 480p output does not display processing artifacts, but creates a constant vertical jumpiness in the output image. 480p output also has improper black levels. Also has a ground loop issue (rolling horizontal bars). HDMI output only supports 480i.
