An Awkward Space Transforms Into A Multifunctional Family Room

Interior designer Victoria Sanchez designs a living room that pulls double duty as a breakfast room.

By Sarah Bray

What the room looked like when designer Victoria Sanchez got her hands on it.

At this year's 7th annual [DC Design House](#), a six-bedroom, five-full and two-half bath estate just outside of Washington D.C. was completely revamped all for a cause. Benefiting [Children's National Health System](#), 29 spaces within the 8,000 square foot home were tackled by the area's top talents in interior design and architecture. DC-based designer [Victoria Sanchez](#) was tapped to convert an awkward front room into a multifunctional dining and living zone. Here, we examine how she devised a family-friendly, multitasking design that connects a butler's pantry and kitchen.
