

Other Ways to Have a Food Fun with Applesauce!

1. Review the recipe and directions then have your students then draw the ingredients and steps on the worksheet attached.
2. Use math with fractions to decide how many servings you will need and multiply the recipe.
3. Talk about the science of the apples cooking down with the water and cinnamon/sugar sweeteners
4. Discuss the importance of sourcing local and the nutrients we find in applesauce.
5. Plan how you're going to share your experience on social media for a chance to win \$1,000 for a Victory Garden at a school of your choice.
