

# News roundup: Downtown landmark has a new look ...

DAILY REPORT STAFF

SEPTEMBER 18, 2017

**Throwing shade:** Downtown's paper clip statues on the Mississippi River have a new look. Builders installed new shade structures atop the dock, an effort from the Downtown Development District to make it easier for people to enjoy the area during the day. The district also plans to add colored LED lights that will illuminate the semi-transparent shade structures and will be "prominent" from the Mississippi River Bridge. The DDD hopes the new project will attract more events to the area.
