# ABOUT ECR2STAR 2013

## ABOUT THE WORKSHOP

The 2013 London workshop has been designed to help ECRs in the field of pharmaceutical and biomedical research. We have a range of established researchers who will pass on their knowledge and tips for success to ECRs.

Additionally, we have an ECR showcase where workshop participants can highlight their research during a rapid fire session.

## ABOUT ECR2STAR

Early career researcher to research star (ECR2STAR) is an initiative to help today's early career researchers become tomorrow's scientific leaders.

ECR2STAR'S mission is to provide ECRs with valuable advice and support through a number of media portals and events world-wide. The [www.ecr2star.org](http://www.ecr2star.org) website provides useful hints and tips, articles and event news for researchers, we hope to expand this in the near future to include funding and job opportunities.
