5 Plus Size Skirts for Summer

Author: [Jen Anderson](#) • Discussion: [No Comments](#)

Summer is almost here, the weather is heating up and your legs want to come back out into the sun after the cold Winter and rainy Spring. That means it's time for skirts. They're comfortable! They're flattering! They're fun! Wear them with short sleeves to start and then switch to tank tops in the hottest days of summer. Then start thinking of ways to wear them in the Fall because you won't want to pack them away.

June Skirt

Fun prints are just made for summer. If you're reluctant to wear prints, a patterned skirt is a great place to start. Wear it with a solid tee, and start accepting compliments. The [June Skirt](#) comes in a print that harkens back to mid-century Atomic Age designs while looking like a modern classic. This A-line skirt is just right for pear shaped women since it offers lots of room around the hips.

Liza Skirt

The [Liza Skirt](#) is a bodycon pencil skirt you'll wear all Summer long. The scuba knit fabric will hold its shape on the hottest days. Pair it with a tee for a casual daytime look, or a halter for an evening party. Available in red or black, the Liza skirt will go with practically every top you own. With this skirt in your closet, you're going to want to go out dancing every night of the week.

California Maxi Skirt

Long, flowing maxi skirts keep you cool in summer despite their long length. Or maybe because of it. SWAK's [California Maxi Skirt](#) gives your Summer wardrobe the touch of boho chic it needs. Petite women can fold over the waist to shorten the skirt.

The California Maxi Skirt comes in black, grey, paradise pink, seafoam, turquoise, and silver.

Torrid Denim Skirt

Sometimes you just want to throw on a pair of jeans. But Summer is way too hot for that. Enter the denim skirt. Torrid's [denim skirt](#) is the mini you'll reach for on casual days. Wear them with sneakers to run errands or with strappy sandals and a nice top for lunch with friends.

Floral Mini Skater Skirt

Sometimes you want a little room in your mini skirt. The Floral Mini Skater Skirt is summery short but has just enough volume that you'll be spinning around every chance you get. The watercolor floral print is fun and flirty. Even better – it's available up to size 6x.

Summer is For Skirts

Shorts have their place, but they can be too casual or too sporty for every occasion. Sometimes only a skirt will do. Few things can make you feel like Summer has arrived like putting on a great skirt and going for a walk in the park. Summer may get unbearably hot, but getting to wear skirts makes up for that.
