## Plus Size Trend – Wrap Dresses

Author: [Jen Anderson](#) • Discussion: [1 Comment](#)

Finding clothes that fit perfectly can be a challenge. If something fits your bust and hips, it's huge on your waist. If it fits your waist, then it's tight over your bust and hips. Or the whole thing fits OK, but it would fit perfectly if it were only half an inch smaller – and of course, the next size down is much smaller than that.

Wrap dresses to the rescue. Sure, they can be a little complicated to put on, but the fit is just right every time. And there are so many more styles of wrap dress than just the basic wrap.

### Whimsy Wrap Dress

Kiyonna's [Whimsy Wrap Dress](#) features a fun, flirty ruffle. Since this is a true wrap dress (not a faux wrap), you can adjust the neckline to show as much (or as little) skin as you're comfortable with. It ties just below your bust – the smallest part of your body. That gives your waist a nipped-in look regardless of your individual body shape.

This dress comes in classic shades like black and navy, as well as more vibrant colors like Serenity Blue and Red-y For Love.

### Sweetheart Knit Wrap Dress

Wearing a wrap dress doesn't mean you're stuck with a deep-v neckline. Kiyonna's [Sweetheart Knit Wrap Dress](#) has a sweetheart neckline. It's feminine, but not frilly. It's flattering on all body shapes thanks to the empire waistline. It's just the thing for date night, wedding receptions, parties and girl's night out.

Get the [Sweetheart Knit Wrap Dress](#) in plum, red, black or navy.

### Essential Wrap Dress

Kiyonna's [Essential Wrap Dress](#) is that elusive creature – a dress that really does go from day to night. Wear this classic wrap dress to the office, then change up the accessories for a night on the town. It's sophisticated and versatile.

The dress wraps just under the bust, making it flattering for all body shapes. It comes in black, cobalt blue and this black and white print (pictured).

## Wrap Your Curves in Style

Wrap dresses are a classic look for a reason. They're super flattering, and you can adjust the size and neckline to suit you. Any fashion rookie can wear a faux wrap dress, but that just gives you the look of a wrap dress with none of the flexibility. Once you slip into a wrap dress, you'll never go back to faux. The real thing is just too good.
