Layering Pieces That Shine On Their Own

Author: [Jen Anderson](#) • Discussion: [No Comments](#)

Ah, layering pieces – they can be versatile clothes that let you mix and match while wearing clothes through more seasons. Or they can be flimsy see-through tops that give you the layered look without the ability to remove a layer when you get warm.

Cushie b only makes the good kind of layering pieces. Really, they're just tops that look great on their own. You don't have to layer a sweater or jacket over them. But you could. Both these tops are sleeveless, so they don't add bulk when you put on another layer. In warm weather, they look fabulous on their own.

Sleeveless Top

Cushie b's [Sleeveless Top](#) is knit from viscose yarn from Italy. The open pattern at the neckline adds a touch of style to a wardrobe basic. It drapes over your curves, and adds a wonderful sense of movement to any outfit.

Cushie b's [Long Drape Cardigan](#) features the same stitch pattern, which makes it a perfect accompaniment. Or layer on a brightly colored cardi like the [Draped Blanket Cardigan](#).

The Sleeveless Top comes in [Cream](#) and [Black](#).

Simple A-Line Cotton Lycra Tank

Is it possible to get excited over a basic tank top? Absolutely! All you want is a plain tank to wear under a jacket at the office and half the time all you can find it sporty tanks with designs on the front and no room for your hips. It shouldn't be that hard to find a tank that you want in every color. And you just did.

Cushie b's [Simple A-Line Cotton Lycra Tank](#) is made of heavy cotton lycra, so it holds its shape. The princess seams flatter your curves while the seamless sides help it drape the way it should.

It comes in [Black](#), [Oatmeal](#), and [Mediterranean Blue](#). You'll probably need more than one since you'll be living in these tanks from Spring through Fall.

Everything You Want in a Layer

Think of a layering piece as a layer in a cake. Each cake layer tastes great on its own, but can become something truly special when added to other layers. Just like you wouldn't want a layer in your cake that lacks sugar, you don't want a layering piece of clothing that you couldn't wear by itself. Quality fabrics and luxurious design can elevate even a basic tank top to fashion you can love.
