## 5 Date Night Dresses for Plus Size Apple Shaped Women

Author: [Jen Anderson](#) • Discussion: [No Comments](#)

On date night, you want to wear a dress that makes you look and feel amazing. It's even better when it's comfortable. Settling for a dress that's just OK can really put a damper on your evening. The trick to finding perfect dresses is figuring out what's perfect for you. Apple shaped women need clothes that work with their curves instead of fighting with them. Anything with a strongly defined waist is going to be unflattering and uncomfortable on an apple shaped woman because it cuts across your curves. You need dresses that skim over all your curves.

When you stick with the shapes that look best on your apple shaped body, shopping is easier and much more fun.

### Signature Lace Cocktail Dress

But wait – didn't we just say defined waists are unflattering to apple shaped women? They are, but this dress' "waist" isn't at waist-height. The dress' smallest point is right below the bust, which allows the skirt to skim right over your apple stomach. The high empire waist does create a horizontal line across the dress, but since it's at the narrowest part of your torso, it's comfortable and super flattering.

Kiyonna's [Signature Lace Cocktail Dress](#) features a lace inset so you get the look of a plunging neckline without showing too much skin.

### Charlize Maxi Dress

Maxi dresses look amazing on apple shaped women, and Kiyonna's [Charlize Maxi Dress](#) is no exception. Why do maxi dresses look so good on you? It's that long, straight skirt. Your apple shape means that your hips don't jut out and disrupt the flow of all that fabric. Stick with an empire waist and you'll have a dress that skims your body without hiding it.

Some date nights are more casual or bohemian than others. Kiyonna's [Bohemian Breeze Maxi Dress](#) works for a resort, a cruise or anywhere you want to show off your Boho chic style.

This dress has the high empire waist and straight sweeping skirt that looks great on apple shaped women.

## Harlow Faux Wrap Dress

Wrap dresses don't usually flatter apple shaped bodies, but Kiyonna's [Harlow Faux Wrap Dress](#) is an exception. The wrap hits high like an empire waist dress. And since it's a faux wrap, putting it on is wonderfully uncomplicated – and the "waist" will always hit you at the right spot. The petal skirt skims over your stomach and adds some fun, flirty movement.

## Kara Lace Dress

swak's [Kara Lace Dress](#) makes for a romantic, delicate look. The waist seam hits above the natural waist (like those empire waistlines we love) and gives the dress structure. The scoop neckline is especially flattering on smaller busted apples.
