Heide Museum of Modern Art / Koonung SC Partnership

Koonung is proud to announce a partnership formed with one of Australia's most important cultural institutions, Heide Museum of Modern Art.

Our school has been invited to be to be a part of a collaborative project titled the Koonung SC / Heide VTS (Visual Thinking Strategies) Partnership with Heide Museum of Modern Art (Heide). Heide Education provides a stimulating range of programs for students and educators to complement Heide exhibitions, Collection, history and gardens. Programs range from tours, art making workshops, intensive forums and in conversation series with artists and arts professionals. Heide programs and resources are designed to broaden and enrich curriculum requirements to inspire a deeper appreciation of art and creative thinking.

Our newly formed partnership will be implemented in our Year 7 Art curriculum, beginning in Semester 2, with the intention to expand to other year levels in coming years. Eight of Koonung's visual arts staff will receive specialist training at Heide next week. Parents of Year 7 Art students, involved in the program, will receive access to Heide's exhibitions with the goal of encouraging families to support their child in visual arts education.
