## 3. Highlight and Nose Shadow

For highlighting, use a sharp-edged brush to apply in these 4 areas to bring out the shadows: under the eyebrows, under the eyes, along the nose, and on the eyelids. Once the shadows are established, contour the nose bridge and the area between your eyebrows and eyelids, leaving some space for highlighting.

#### 4. Draft Eyeliner and Eyeshadow

Draft eyeliner with gel liner. The application of the eyeliner will enhance the size of the eyes, and make it appear bigger. Apply eyeshadows on the eyelids, just below the highlights. Afterwards, add some eyeshadows on the outer corner of the eyes to create a gorgeous side profile.

#### 5. False Eyelashes and Finishing Eyeliner

Place the false eyelashes on the rough eye line from the centre of the eyes. For the finishing eyeliner, carefully draw along the draft with a liquid eyeliner.
