EXPERIENCE:

Senior Creative Technologist (Freelance)

Spinifex Group

October 2013 - Present

Los Angeles, CA

Ongoing development of large-scale interactive engagements for Nissan's presence in auto shows around the world. This includes a large interactive touch wall built with OpenFrameworks as well as a location-aware HTML5 app that presents dynamic content to a visitor based on her physical location in the exhibit space. A case study can be viewed here: <http://vimeo.com/87114345>

Senior Creative Technologist

AllofUs Design

March 2010 - July 2013

London, England

Ownership of all technical concerns for large-scale projects. Software development across a variety of languages and platforms including AS3, JavaScript, C#, C++, C, and php for physical interactive installations. Mentoring junior developers and freelancers. Building and maintaining relationships with clients and managing their expectations. Collaborate with internal management, UX, and Visual Design teams to achieve strong solutions to complex challenges. Contribute in brainstorming, concepting, and pitches. Act as consultant for technical feasibility. Provide effort and cost estimates. Deliver highest standard of work always.

Senior Creative Technologist

Wunderman

March 2008 – March 2010

London, England

AS3 development for high-profile localized & accessible campaign sites using OOP and design patterns with industry-standard frameworks and libraries (PureMVC, Parsley, TweenMax/Lite, Flint, etc...) This role also involved ownership of all technical aspects of microsite builds, Flex application development, mentoring junior developers and supporting freelancers, collaborating with art directors and project managers to deliver complex projects on time and on budget, costing & time estimations for projects, and contributing code to the Wunderman shared libraries.

Freelance Creative Technologist

2006- March 2008 (HSMP visa)

London, England

This role was working remotely for my previous employer, Group 22 and involved (X)HTML, CSS, JavaScript, Flash Actionscript 2/3, php & MySQL development, CD/DVD authoring, graphic design, animation & video editing/compositing.

Lead Interactive Developer

Group 22 Inc.

2003-2006

El Segundo, CA

(X)HTML, CSS, JavaScript, Flash, php & MySQL development, CD/DVD authoring, graphic design, animation & video editing/compositing. This role included managing different development teams for large projects, giving time estimations for projects, and acting as the “go to” for any technical queries.

Interactive Developer

Webber Interactive Inc.

2001-2003

Culver City, CA

HTML, CSS, JavaScript, Flash, php & MySQL development, graphic design & animation. This role involved building e-commerce websites, web-based training applications, and rich media web sites.

EDUCATION:

MA (with Merit) in Art, Design & Visual Culture (December 2006)

London Metropolitan University

London, England

BSc (Honor Roll) in Multimedia & Web Design (December 2002)

Art Institute of Los Angeles

Los Angeles, CA

INTERESTS:

Music, travel, technology, reading, physical computing & design.
