PERSONAL STATEMENT

I'm a 29 year old designer currently based in the San Francisco Bay Area. I love the design process, from putting myself in the user's shoes and designing a happy path of great UX/UI patterns, to finding what visually works and experimenting with visual trends to testing my work throughout the process. Career-wise, I've cut my teeth all over, and these days am focusing on learning rapid prototyping and keeping up with fast moving design tools and applying them at various contract/freelance jobs.

Currently on the hunt for my next opportunity, I'd love to see if I'm a good fit for your team!
