How can research better inform CDD operations in Africa? (Recommendations from Team Ops)

- Think through how things will work, not just outcomes
- Do feasibility studies & field testing first
- Identify the priorities of policy makers
- Think before evaluating: Really going to work?
- Understand program design & objectives first
- Hard evidence on cost-benefit of IEs
- What are the limits of the IE?
- Better alternatives for measuring social capital
- What can be evaluated when?
