

The main project of Path of the Heart is to provide food, clothing and education to indigent children and families of the Sacred Valley and Andean Villages of Peru. The core of this project is a restaurant which feeds 60-80 children daily. Funds are used for the maintenance and operation of the restaurant, and for other projects which help children and families in the high Andes, including providing environmentally friendly solar lights for homes and schools.

A gift to Path of the Heart has been made in your honor. This gift will help impoverished, malnourished children of the Sacred Valley and Andean Villages of Peru to become self-reliant adults by providing access to good nutrition and education.

May this contribution to the lives of these children bring you joy.
