

Personalized Learning Group Roll Out

In Fall 2014 all schools completed a “readiness rubric” and selected a roll out group for personalized learning. Groups go through a 12-18 month process to develop:

- Instructional plan for personalized learning, aligned to the school's strategic plan
- Professional development and communications plans
- Selection and roll out of student devices (timeline determined by the school, but expected to happen within the 18 month window)

Personalized Learning Groups
