## NEW PRODUCT NEWS RELEASE

Swift Creek Inc. introduces the world's best deer fence diverter for vehicle collision avoidance. We offer an answer to deer/ motorist collision problems preventing deer from crossing fence lines and guiding them to over and underpass or deer gate structures. The product is visible in the ultra-violet spectrum that can be seen by deer, elk, and moose grazing after dark along roadside right-of-way areas. The tag glows for 10 hrs. after sunset. The fence tag flips in the wind increasing visibility to approach deer along fence lines. Product was developed by a wildlife biologist.

The product easily installs on the top wire of both barbed wire and smooth wire fence.

Fence Tag Dimension : Approximately 3" x 2 ". Install 1ea. Diverter per every 8 linear feet of fence

**Retail Price – 1.00 USD each**

**Volume Discounts available for large quantities (1,000 >).**
