

YETi CGI builds and launches tools, products, platforms, and immersive experiences.

Custom Machine-Vision Algorithms

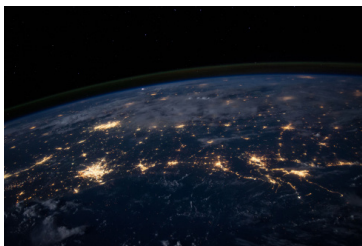

AI and Machine Learning

Mobile and Web Ready 3D Assets

Collaborative Immersive Training Platforms

Global Market Deployment and Localization

Hardware-Software Integration

HIGHLIGHTS

- Past Educators
- 40+ People
- 4-6 Development Teams
- Global Talent Network
- Active Internship/Mentorship/Talent Feed
- Diverse Expertise In-House

CORE CAPABILITIES

- Full Stack Development
- R&D and Innovation Services
- Design and Prototyping
- Holistic Productization
- DevOps
- Quality Assurance

CURRENT EXPERTISE

- AI and Machine Learning
- Machine Vision
- Analytical Platform Integration
- AR, VR, MR Immersive Content
- Gamified Simulation and Training
- Scalable Backend Infrastructure
- Production Automation
- Cross Platform Full Stack Development
- Ambient Computing Installation
- Global Market Deployment and Localization
- Decentralized Distributed Secure Computing
