This Prospectus sets forth basic information about the Fund that you should know before investing. It should be read and retained for future reference.

The date of this Prospectus is February 1, 2018.

SUMMARY SECTION

Investment Objectives

The investment objectives of the Ironclad Managed Risk Fund (the “Fund”) are to seek current income and gains.

Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund.

Shareholder Fees	
<i>(fees paid directly from your investment)</i>	
Maximum sales charge (load) imposed on purchases	None
Maximum deferred sales charge (load)	None
Redemption fee if redeemed within 30 days of purchase (as a percentage of amount redeemed)	2.00%
Overnight check delivery fee	\$25
Retirement account fees (annual maintenance fee)	\$15
Wire fee	\$20
Annual Fund Operating Expenses	
<i>(expenses that you pay each year as a percentage of the value of your investment)</i>	
Management fees	1.10%
Distribution (Rule 12b-1) fees	None
Other expenses	0.24%
Total annual fund operating expenses	1.34%
Fees waived and/or expenses reimbursed ¹	(0.09%)
Total annual fund operating expenses after waiving fees and/or reimbursing expenses ¹	1.25%

- 1 The Fund’s advisor has contractually agreed to waive its fees and/or pay for operating expenses of the Fund to ensure that total annual fund operating expenses (excluding any taxes, leverage interest, brokerage commissions, acquired fund fees and expenses (as determined in accordance with Form N-1A), expenses incurred in connection with any merger or reorganization, and extraordinary expenses such as litigation expenses) do not exceed 1.25% of the average daily net assets of the Fund. This agreement is in effect as long as the Investment Advisory Agreement for the Fund is in effect, and it may be terminated only by the Trust’s Board of Trustees. The Fund’s advisor is permitted to seek reimbursement from the Fund, subject to certain limitations, of fees waived or payments made to the Fund for a period ending three full fiscal years after the date of the waiver or payment. This reimbursement may be requested from the Fund if the reimbursement will not cause the Fund’s annual expense ratio to exceed the lesser of (a) the expense limitation in effect at the time such fees were waived or payments made, or (b) the expense limitation in effect at the time of the reimbursement.

Example

This example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same.

Although your actual costs may be higher or lower, based on these assumptions your costs would be:

One Year	Three Years	Five Years	Ten Years
\$127	\$416	\$725	\$1,605

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 47% of the average value of its portfolio.

Principal Investment Strategies

Under normal circumstances, the Fund's primary strategy consists of selling and purchasing put and call options on equity indexes and exchange traded funds (“ETFs”). The sale of put options generates income for the Fund, but exposes it to the risk of declines in the value of the underlying assets. The risk in purchasing options is limited to the premium paid by the Fund for the options. The sale of call options generates income for the Fund, but may limit the Fund's participation in equity market gains. The Fund's investment advisor seeks to reduce the overall volatility of returns by managing a portfolio of options.

A put option gives the purchaser of the option, upon payment of a premium, the right to sell a specified quantity of an underlying asset at a fixed exercise price over a defined period of time. When the Fund sells a put option on an index and the index decreases in value, the purchaser of the put option has the right to exercise the option, obligating the Fund to make a cash payment equal to the difference between the option's exercise price and the prevailing index value. When the Fund sells a put option on an ETF and the ETF decreases in value, the purchaser of the put option has the right to exercise the option, obligating the Fund to purchase the ETF at an exercise price that is higher than the prevailing market price. The Fund collects option premium income when it sells the put option. If the index or ETF increases in value, the purchaser of the put option is unlikely to exercise the option since the prevailing market price will be higher than the exercise price. Accordingly, the Fund retains all put premium income collected during market advances. The Fund's investment advisor determines the Fund's exposure to each put option by evaluating metrics associated with the valuation of options, including, but not limited to, volatility, time to expiration and the relationship of the exercise price to the market price of the index or ETF. The Fund's investment advisor segregates on a daily basis cash, or other liquid assets, in an amount equal to the Fund's net obligations under each put option.

Options may also be used to protect the Fund's investments against changes resulting from market conditions (a practice called “hedging”) or to generate income and gains. A call option gives the purchaser of the option, upon payment of a premium, the right to buy a specified quantity of an underlying asset at a fixed exercise price over a defined period of time. The Fund may purchase and sell put and call options to adjust the risk and return of its overall investment positions. When the Fund's investment advisor believes the value of an underlying asset will decline, the Fund may purchase a put option to profit from the decline. Similarly, when the advisor anticipates an increase in the value of an underlying asset, the Fund may purchase a call option with respect to that asset.

All option positions held by the Fund are exchange-traded and collateralized with cash, cash equivalents (for example, Treasury Bills, money market fund shares, etc.), other listed options or debt rated investment grade by at least one nationally recognized statistical ratings organization (“NRSRO”).

The Fund may take a defensive position when the Fund’s investment advisor believes that current market, economic, political or other conditions are unsuitable and would impair the pursuit of the Fund’s investment objectives. When taking a defensive position, the Fund may invest up to 100% of its assets in cash, cash equivalents, including but not limited to, obligations of the U.S. Government, money market fund shares, commercial paper, certificates of deposit and/or bankers acceptances, as well as other interest bearing or discount obligations or debt instruments that carry an investment grade rating by a national rating agency. When the Fund takes a defensive position, the Fund may not achieve its investment objectives.

Principal Risks of Investing

Risk is inherent in all investing. A summary description of the principal risks of investing in the Fund is set forth below. Before you decide whether to invest in the Fund, carefully consider the risk factors associated with investing in the Fund, which may cause investors to lose money. There can be no assurance that the Fund will achieve its investment objectives.

Credit Risk. The issuer of a fixed-income security held by the Fund may be unable or unwilling to make timely payments of interest or principal.

ETF Risk. Shares of ETFs typically trade on securities exchanges and may at times trade at a premium or discount to their net asset values. In addition, an ETF may not replicate exactly the performance of the benchmark index it seeks to track for a number of reasons, including transaction costs incurred by the ETF, the temporary unavailability of certain index securities in the secondary market or discrepancies between the ETF and the index with respect to the weighting of securities or the number of securities held. Investing in ETFs, which are investment companies, may involve duplication of advisory fees and certain other expenses.

Equity Risk. The value of an equity market index tends to fluctuate based on price movements in the broader securities markets due to general market and economic conditions, perceptions regarding the industries in which the issuers of securities listed on the index participate, or factors relating to specific companies listed on the index.

Fixed Income Securities Risk. The prices of fixed income securities respond to economic developments, particularly interest rate changes, as well as to changes in an issuer’s credit rating or market perceptions about the creditworthiness of an issuer.

Interest Rate Risk. Generally, fixed-income securities decrease in value if interest rates rise and increase in value if interest rates fall, and lower rated securities are more volatile than higher rated securities.

Management and Strategy Risk. Investment strategies employed by the advisor in selecting investments for the Fund may not result in an increase in the value of your investment or in overall performance equal to other investments.

Options Risk. The value of the Fund’s positions in options will fluctuate in response to changes in the values of the assets they track, among other factors. The Fund may not fully benefit from or may lose money on an option if changes in its value do not correspond as anticipated to changes in the value of the underlying securities. The value of a put option generally decreases as the underlying asset increases in value and increases as the underlying asset decreases in value. The risk associated with selling a put option is that the market value of the underlying security could decrease and the option could be exercised, obligating the seller of the put option to settle the transaction at an exercise price that is higher than the prevailing market price. The value of a call option generally increases as the underlying asset increases in value and decreases as the underlying asset decreases in value. The risk associated with selling a call option is that the market value of the underlying security could increase and the option could be exercised, obligating the seller of the call

option to settle the transaction at an exercise price that is lower than the prevailing market price. Written call and put options may limit the Fund's participation in equity market gains and may amplify losses in market declines. When buying options, risk is limited to the premium paid for the option. Purchased put and call options may expire worthless. Gains or losses from options can be substantially greater than the option's original premium, and can therefore involve leverage. The selling of options is a highly specialized activity that entails greater than ordinary investment risks.

Ratings Risk. A credit rating only reflects the view of the originating rating agency. Changes to or the withdrawal of a rating may result in the security becoming less liquid or losing value.

Performance

The following performance information indicates some of the risks of investing in the Fund. The bar chart below illustrates how the Fund's total returns have varied from year to year. The Fund's primary benchmark is the CBOE S&P 500 PutWrite Index. The table below illustrates how the Fund's average annual total returns for the periods indicated compare with the Fund's primary benchmark, as well as the S&P 500 Index. The Fund's advisor considers these indexes to be standard performance benchmarks for the Fund's relative performance. The Fund's past performance, before and after taxes, is not necessarily an indication of how the Fund will perform in the future. Updated performance information is available on the Fund's website at www.IroncladFunds.com.

Calendar-Year Total Return (before taxes) For each calendar year at NAV

Highest Calendar Quarter Return:	6.21%	Quarter Ended 12/31/11
Lowest Calendar Quarter Return:	-3.57%	Quarter Ended 9/30/11

Average Annual Total Returns <i>for periods ended December 31, 2017</i>	One Year	Five Years	Since Inception (October 14, 2010)
Return Before Taxes	3.32%	4.37%	5.80%
Return After Taxes on Distributions	0.57%	2.88%	4.33%
Return After Taxes on Distributions and Sale of Fund Shares	3.17%	3.07%	4.32%
CBOE S&P 500 PutWrite Index (does not reflect deduction for fees, expenses or taxes)	10.85%	8.71%	8.72%
S&P 500 Index (does not reflect deduction for fees, expenses or taxes)	21.83%	15.79%	14.48%

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ

from those shown. After-tax returns shown are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts.

Investment Advisor

Ironclad Investments LLC (the “Advisor”)

Portfolio Managers

Rudy Aguilera has served as the Lead Portfolio Manager of the Fund and has been primarily responsible for the day-to-day management of the Fund’s portfolio since its inception on October 14, 2010. Tim Holtz has served as a Portfolio Manager of the Fund since July 1, 2017.

Purchase and Sale of Fund Shares

To purchase shares of the Fund, you must invest at least the minimum amount.

Minimum Investments	To Open Your Account	To Add to Your Account
Direct Regular Accounts	\$2,500	\$500
Direct Retirement Accounts	\$2,500	\$500
Automatic Investment Plan	\$2,500	\$100
Gift Account For Minors	\$2,500	\$500

Fund shares are redeemable on any business day the New York Stock Exchange (the “NYSE”) is open for business, by written request or by telephone.

Tax Information

The Fund’s distributions are generally taxable, and will ordinarily be taxed as ordinary income, qualified dividend income or capital gains, unless you are investing through a tax-advantaged arrangement, such as a 401(k) plan or an individual retirement account. Shareholders investing through such tax-advantaged arrangements may be taxed later upon withdrawal of monies from those arrangements.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary’s website for more information.

MORE ABOUT THE FUND'S INVESTMENT OBJECTIVES, PRINCIPAL INVESTMENT STRATEGIES AND RISKS

Investment Objectives

The Fund's investment objectives are current income and gains. There is no assurance that the Fund will achieve its investment objectives. The Fund's investment objectives are not fundamental and may be changed by the Board of Trustees without shareholder approval, upon at least 60 days' prior written notice to shareholders. The Fund's investment strategies and policies may be changed from time to time without shareholder approval or prior written notice, unless specifically stated otherwise in this Prospectus or the SAI.

Principal Investment Strategies

Under normal circumstances, the Fund's primary strategy consists of selling and purchasing put and call options on equity indexes and exchange traded funds ("ETFs"). The sale of put options generates income for the Fund, but exposes it to the risk of declines in the value of the underlying assets. The risk in purchasing options is limited to the premium paid by the Fund for the options. The sale of call options generates income for the Fund, but may limit the Fund's participation in equity market gains. The Fund's investment advisor seeks to reduce the overall volatility of returns by actively managing a portfolio of options.

A put option gives the purchaser of the option, upon payment of a premium, the right to sell a specified quantity of an underlying asset at a fixed exercise price over a defined period of time. When the Fund sells a put option on an index and the index decreases in value, the purchaser of the put option has the right to exercise the option, obligating the Fund to make a cash payment equal to the difference between the option's exercise price and the prevailing index value. When the Fund sells a put option on an ETF and the ETF decreases in value, the purchaser of the put option has the right to exercise the option, obligating the Fund to purchase the ETF at an exercise price that is higher than the prevailing market price. The Fund collects option premium income when it sells the put option. If the index or ETF increases in value, the purchaser of the put option is unlikely to exercise the option since the prevailing market price will be higher than the exercise price. Accordingly, the Fund retains all put premium income collected during market advances. The Fund's investment advisor determines the Fund's exposure to each put option by evaluating metrics associated with the valuation of options, including, but not limited to, volatility, time to expiration and the relationship of the exercise price to the market price of the index or ETF. The Fund's investment advisor segregates on a daily basis cash, or other liquid assets, in an amount equal to the Fund's net obligations under each put option.

Options may also be used to protect the Fund's investments against changes resulting from market conditions (a practice called "hedging") or to generate income and gains. A call option gives the purchaser of the option, upon payment of a premium, the right to buy a specified quantity of an underlying asset at a fixed exercise price over a defined period of time. The Fund may purchase and sell put and call options to adjust the risk and return of its overall investment positions. When the Fund's investment advisor believes the value of an underlying asset will decline, the Fund may purchase a put option to profit from the decline. Similarly, when the advisor anticipates an increase in the value of an underlying asset, the Fund may purchase a call option with respect to that asset.

All option positions held by the Fund are exchange-traded and backed by the Options Clearing Corporation ("OCC"). In general, exchange-traded options have standardized exercise prices and expiration dates, which require the parties to post collateral against their obligations. Consequently, all option positions held by the Fund are collateralized with cash, cash equivalents (for example, Treasury Bills, money market fund shares, etc.), other listed options or debt rated investment grade by at least one NRSRO.

When the Fund's investment advisor believes that current market, economic, political or other conditions are unsuitable and would impair the pursuit of the Fund's investment objectives, the Fund may invest up to 100% of its assets in cash, cash equivalents, including but not limited to, obligations of the U.S. Government, money market fund shares, commercial paper, certificates of deposit and/or bankers acceptances, as well as other interest bearing or discount obligations or debt instruments that carry an investment grade rating by a national rating agency. When the Fund takes a defensive position, the Fund may not achieve its investment objectives.

Principal Risks of Investing

The Fund's principal risks are set forth below. Before you decide whether to invest in the Fund, carefully consider these risk factors and special considerations associated with investing in the Fund, which may cause you to lose money.

Credit Risk. The issuer of a fixed-income security held by the Fund may be unable or unwilling to make timely payments of interest or principal.

ETF Risk. Shares of ETFs typically trade on securities exchanges and may at times trade at a premium or discount to their net asset values. In addition, an ETF may not replicate exactly the performance of the benchmark index it seeks to track for a number of reasons, including transaction costs incurred by the ETF, the temporary unavailability of certain index securities in the secondary market or discrepancies between the ETF and the index with respect to the weighting of securities or the number of securities held.

Equity Risk. Investments in the equity markets involve substantial risks, as equity securities may be subject to wide and sudden fluctuations in value, with a resulting fluctuation in the amount of profits and losses. The value of an equity market index tends to fluctuate based on price movements in the broader securities markets due to general market and economic conditions, perceptions regarding the industries in which the issuers of securities listed on the index participate, or factors relating to specific companies listed on the index.

Fixed Income Securities Risk. The prices of fixed income securities respond to economic developments, particularly interest rate changes, as well as to changes in an issuer's credit rating or market perceptions about the creditworthiness of an issuer, including governments.

Interest Rate Risk. Changes in interest rates will affect the value of a Fund's investments in fixed-income securities. Generally, fixed-income securities decrease in value if interest rates rise and increase in value if interest rates fall, with lower rated securities more volatile than higher rated securities.

Management and Strategy Risk. Investment strategies employed by the advisor in selecting investments for the Fund may not result in an increase in the value of your investment or in overall performance equal to other investments.

Options Risk. The value of the Fund's positions in options will fluctuate in response to changes in the values of the assets they track, among other factors. The Fund may not fully benefit from or may lose money on an option if changes in its value do not correspond as anticipated to changes in the value of the underlying securities. The value of a put option generally decreases as the underlying asset increases in value and increases as the underlying asset decreases in value. The risk associated with selling a put option is that the market value of the underlying security could decrease and the option could be exercised, obligating the seller of the put option to settle the transaction at an exercise price that is higher than the prevailing market price. The value of a call option generally increases as the underlying asset increases in value and decreases as the underlying asset decreases in value. The risk associated with selling a call option is that the market value of the underlying security could increase and the option could be exercised, obligating the seller of the call option to settle the transaction at an exercise price that is lower than the prevailing market price. Written call and put options may limit the Fund's participation in equity market gains and may amplify losses in market declines. When buying options, risk is limited to the premium paid for the option. Purchased put and call options may expire worthless. Gains or losses from options can be substantially greater than the option's original premium, and can therefore involve leverage. The selling of options is a highly specialized activity that entails greater than ordinary investment risks.

Ratings Risk. A credit rating is not an absolute standard of quality, but rather a general indicator that reflects only the view of the originating rating agency. If a rating agency revises downward or withdraws its rating of a security in which the Fund invests, that security may become less liquid or may lose value.

Portfolio Holdings Information

A description of the Fund's policies and procedures with respect to the disclosure of the Fund's portfolio securities is available in the Fund's Statement of Additional Information ("SAI"). Currently, disclosure of the Fund's holdings is required to be made quarterly within 60 days of the end of each fiscal quarter, in the Fund's Annual Report and Semi-Annual Report to Fund shareholders, and in its quarterly holdings report on Form N-Q.

MANAGEMENT OF THE FUND

Investment Advisor

Ironclad Investments LLC is the Fund's investment advisor and provides investment advisory services to the Fund pursuant to an investment advisory agreement between the Advisor and the Trust (the "Advisory Agreement"). The Advisor was founded in August 2010 and its principal address is 1420 Celebration Boulevard, Suite 200, Celebration, FL 34747. The Advisor was founded and is controlled by Rudy Aguilera. The Advisor currently does not manage any other assets.

The Advisor provides the Fund with advice on buying and selling securities. The Advisor also furnishes the Fund with office space and certain administrative services. The Advisor is entitled to receive from the Fund an annual management fee that decreases as assets increase, as follows: 1.10% on the first \$1 billion, 1.05% on the next \$2 billion, and 1.00% on assets in excess of \$3 billion, calculated daily and payable monthly, of the Fund's average daily net assets. For the fiscal year ended September 30, 2017, the Advisor received a management fee of 1.01% of the Fund's average daily net assets after waiving fees pursuant to its expense limitation agreement with the Trust on behalf of the Fund.

A discussion regarding the basis for the Board's approval of the Advisory Agreement is in the Fund's Annual Report to shareholders dated September 30, 2017.

Portfolio Managers

Rudy Aguilera and Tim Holtz are primarily responsible for the day-to-day management of the Fund's portfolio.

Rudy Aguilera has served as the Advisor's Chief Investment Officer and Lead Portfolio Manager since its founding in August 2010. From 2004 to 2010, Mr. Aguilera was a Principal of Helios, LLC (Helios) where he served as the Chief Investment Officer and was tasked with the development and implementation of the firm's investment models. Previously, Mr. Aguilera led lectures on risk management for investment professionals at the Chicago Board Options Exchange (CBOE).

Tim Holtz joined the Advisor in 2012 and became a Portfolio Manager for the Advisor in 2017. Previously, Mr. Holtz was a Senior Financial Analyst at SunGard and a Senior Pension Fund Accountant at the Bank of New York Mellon. Mr. Holtz is a CFA charterholder.

The SAI provides additional information about the Portfolio Managers' method of compensation, other accounts managed by the Portfolio Managers and the Portfolio Managers' ownership of Fund securities.

Other Service Providers

IMST Distributors, LLC (the "Distributor") is the Trust's principal underwriter and acts as the Trust's distributor in connection with the offering of Fund shares. The Distributor may enter into agreements with banks, broker-dealers, or other financial intermediaries through which investors may purchase or redeem shares. The Distributor is not affiliated with the Trust, the Advisor or any other service provider for the Fund.

Fund Expenses

The Fund is responsible for its own operating expenses (all of which will be borne directly or indirectly by the Fund's shareholders), including among others, legal fees and expenses of counsel to the Fund and the Fund's Independent Trustees; insurance (including Trustees' and officers' errors and omissions insurance); auditing and accounting expenses; taxes and governmental fees; listing fees; fees and expenses of the Fund's custodians, administrators, transfer agents, registrars and other service providers; expenses for portfolio pricing services by a pricing agent, if any; expenses in connection with the issuance and offering of shares; brokerage commissions and other costs of acquiring or disposing of any portfolio holding of the Fund; and any litigation expenses.

The Advisor has contractually agreed to waive its fees and/or pay for operating expenses of the Fund to ensure that the total annual fund operating expenses (excluding any taxes, leverage interest, brokerage commissions, acquired fund fees and expenses (as determined in accordance with Form N-1A), expenses incurred in connection with any merger or reorganization, and extraordinary expenses such as litigation expenses) do not exceed 1.25% of the average daily net assets of the Fund. This agreement is in effect as long as the Investment Advisory Agreement for the Fund is in effect, and it may be terminated only by the Trust's Board of Trustees.

Any reduction in advisory fees or payment of the Fund's expenses made by the Advisor in a fiscal year may be reimbursed by the Fund for a period ending three full fiscal years after the date of reduction or payment if the Advisor so requests. This reimbursement may be requested from the Fund if the reimbursement will not cause the Fund's annual expense ratio to exceed the lesser of (a) the expense limitation in effect at the time such fees were waived or payments made, or (b) the expense limitation in effect at the time of the reimbursement. However, the reimbursement amount may not exceed the total amount of fees waived and/or Fund expenses paid by the Advisor and will not include any amounts previously reimbursed to the Advisor by the Fund. Any such reimbursement is contingent upon the Board's subsequent review of the reimbursed amounts. The Fund must pay current ordinary operating expenses before the Advisor is entitled to any reimbursement of fees and/or Fund expenses.

Additional Payments to Broker-Dealers and Other Financial Intermediaries

The Advisor may pay service fees to intermediaries such as banks, broker-dealers, financial advisors or other financial institutions, some of which may be affiliates, for sub-administration, sub-transfer agency and other shareholder services associated with shareholders whose shares are held of record in omnibus accounts, other group accounts or accounts traded through registered securities clearing agents.

The Advisor, out of its own resources, and without additional cost to the Fund or its shareholders, may provide additional cash payments or non-cash compensation to broker-dealers or intermediaries that sell shares of the Fund. These additional cash payments are generally made to intermediaries that provide shareholder servicing, marketing support and/or access to sales meetings, sales representatives and management representatives of the intermediary. The Advisor may pay cash compensation for inclusion of the Fund on a sales list, including a preferred or select sales list, or in other sales programs or may pay an expense reimbursement in cases where the intermediary provides shareholder services to the Fund's shareholders. The Advisor may also pay cash compensation in the form of finder's fees that vary depending on the dollar amount of the shares sold.

YOUR ACCOUNT WITH THE FUND

Share Price

The offering price of the Fund's shares is the net asset value per share ("NAV"). The Fund's NAV is calculated as of 4:15 p.m. Eastern Time on each day the NYSE is open for trading. If for example, the NYSE closes at 1:00 p.m. New York time, the Fund's NAV would still be determined as of 4:15 p.m. Eastern Time. In this example, portfolio securities traded on the NYSE would be valued at their closing prices unless the Trust's Valuation Committee determines that a "fair value" adjustment is appropriate due to subsequent events. The Fund's NAV is determined by dividing the value of the Fund's portfolio securities, cash and other assets (including accrued interest), less all liabilities (including accrued expenses), by the total number of outstanding shares of the Fund. The Fund's NAV may be calculated earlier if permitted by the SEC. The NYSE is closed on weekends and most U.S. national holidays.

The Fund's securities generally are valued at market prices. Securities are valued at fair value when market quotations are not readily available. The Board has adopted procedures to be followed when the Fund must utilize fair value pricing, including when reliable market quotations are not readily available, when the Fund's pricing service does not provide a valuation (or provides a valuation that, in the judgment of the Advisor, does not represent the security's fair value), or when, in the judgment of the Advisor, events have rendered the market value unreliable. Valuing securities at fair value involves reliance on the judgment of the Advisor and the Board (or a committee thereof), and may result in a different price being used in the calculation of the Fund's NAV from quoted or published prices for the same securities. Fair value determinations are made in good faith in accordance with procedures adopted by the Board. There can be no assurance that the Fund will obtain the fair value assigned to a security if it sells the security.

Purchasing Fund Shares

To purchase shares of the Fund, you must invest at least the minimum amount indicated in the following table.

Minimum Investments	To Open Your Account	To Add to Your Account
Direct Regular Accounts	\$2,500	\$500
Direct Retirement Accounts	\$2,500	\$500
Automatic Investment Plan	\$2,500	\$100
Gift Account For Minors	\$2,500	\$500

Shares of the Fund may be purchased by check, by wire transfer of funds via a bank or through an approved financial intermediary (*i.e.*, a supermarket, investment advisor, financial planner or consultant, broker, dealer or other investment professional and their agents) authorized by the Fund to receive purchase orders. Financial intermediaries may provide varying arrangements for their clients to purchase and redeem shares, which may include additional fees and different investment minimums. In addition, from time to time, a financial intermediary may modify or waive the initial and subsequent investment minimums. You may make an initial investment in an amount greater than the minimum amounts shown in the preceding table and the Fund may, from time to time, reduce or waive the minimum initial investment amounts. The minimum initial investment amount is automatically waived for Fund shares purchased by Trustees of the Trust and current or retired directors and employees of the Advisor and its affiliates.

To the extent allowed by applicable law, the Fund reserves the right to discontinue offering shares at any time or to cease operating entirely.

Additional Investments

Additional subscriptions in the Fund generally may be made by investing at least the minimum amount shown in the table above. Exceptions may be made at the Fund's discretion. You may purchase additional shares of the Fund by sending a check together with the investment stub from your most recent account statement to the Fund at the applicable address listed in the table below, under the heading "Methods of Buying – By Mail." Please ensure that you include your account number on the check. If you do not have the investment stub from your account statement, list your name, address and account number on a separate sheet of paper and include it with your check. You may also make additional investments in the Fund by wire transfer of funds or through an approved financial intermediary. The minimum additional investment amount is automatically waived for shares purchased by Trustees of the Trust and current or retired directors and employees of the Advisor and its affiliates. Please follow the procedures described in this Prospectus.

Customer Identification Information

To help the government fight the funding of terrorism and money laundering activities, federal law requires all financial institutions to obtain, verify and record information that identifies each person who opens an account. When you open an account, you will be asked for your name, date of birth (for a natural person), your residential address or principal place of business, and mailing address, if different, as well as your Social Security Number or Taxpayer Identification Number. Additional information is required for corporations, partnerships and other entities.

Applications without such information will not be considered in good order. The Fund reserves the right to deny any application if the application is not in good order.

This Prospectus should not be considered a solicitation to purchase, or as an offer to sell, shares of the Fund in any jurisdiction where it would be unlawful to do so under the laws of that jurisdiction. Please note that the value of your account may be transferred to the appropriate state if no activity occurs in the account within the time period specified by state law.

Automatic Investment Plan

If you intend to use the Automatic Investment Plan (“AIP”), you may open your account with the initial minimum investment amount. Once an account has been opened, you may make additional investments in the Fund at regular intervals through the AIP. If elected on your account application, funds can be automatically transferred from your checking or savings account on the 5th, 10th, 15th, 20th or 25th of each month. In order to participate in the AIP, each additional subscription must be at least \$100, and your financial institution must be a member of the Automated Clearing House (“ACH”) network. The first AIP purchase will be made 15 days after the Transfer Agent receives your request in good order. The Transfer Agent will charge a \$25 fee for any ACH payment that is rejected by your bank. Your AIP will be terminated if two successive mailings we send to you are returned by the U.S. Postal Service as undeliverable. You may terminate your participation in the AIP at any time by notifying the Transfer Agent at (888) 979-IRON (4766) at least five days prior to the date of the next AIP transfer. The Fund may modify or terminate the AIP at any time without notice.

Timing and Nature of Requests

The purchase price you will pay for the Fund’s shares will be the next NAV calculated after the Transfer Agent or your authorized financial intermediary receives your request in good order. “Good order” means that your purchase request includes: (1) the name of the Fund, (2) the dollar amount of shares to be purchased, (3) your purchase application or investment stub, and (4) a check payable to **Ironclad Managed Risk Fund**. All requests received in good order before 4:00 p.m. (Eastern Time) on any business day will be processed on that same day. Requests received at or after 4:00 p.m. (Eastern Time) will be transacted at the next business day’s NAV. All purchases must be made in U.S. Dollars and drawn on U.S. financial institutions.

Methods of Buying

Through a broker-dealer or other financial intermediary

The Fund is offered through certain approved financial intermediaries (and their agents). The Fund is also offered directly. A purchase order placed with a financial intermediary or its authorized agent is treated as if such order were placed directly with the Fund and will be deemed to have been received by the Fund when the financial intermediary or its authorized agent receives the order and executed at the next NAV calculated by the Fund. Your financial intermediary will hold your shares in a pooled account in its (or its agent’s) name. The Fund may pay your financial intermediary (or its agent) to maintain your individual ownership information, maintain required records, and provide other shareholder services. A financial intermediary which offers shares may charge its individual clients transactions fees which may be in addition to those described in this Prospectus. If you invest through your financial intermediary, its policies and fees may be different than those described in this Prospectus. For example, the financial intermediary may charge transaction fees or set different minimum investments. Your financial intermediary is responsible for processing your order correctly and promptly, keeping you advised of the status of your account, confirming your transactions and ensuring that you receive copies of the Fund’s Prospectus. Please contact your financial intermediary to determine whether it is an approved financial intermediary of the Fund or for additional information.

By mail

The Fund will not accept payment in cash, including cashier's checks. Also, to prevent check fraud, the Fund will not accept third party checks, Treasury checks, credit card checks, traveler's checks, money orders or starter checks for the purchase of shares. All checks must be made in U.S. Dollars and drawn on U.S. financial institutions.

To buy shares directly from the Fund by mail, complete an account application and send it together with your check for the amount you wish to invest to the Fund at the address indicated below. To make additional investments once you have opened your account, write your account number on the check and send it to the Fund together with the most recent confirmation statement received from the Transfer Agent. If your check is returned for insufficient funds, your purchase will be canceled and a \$25 fee will be assessed against your account by the Transfer Agent.

Regular Mail
Ironclad Managed Risk Fund
P.O. Box 2175
Milwaukee, Wisconsin 53201

Overnight Delivery
Ironclad Managed Risk Fund
235 West Galena Street
Milwaukee, Wisconsin 53212

The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agents.

By telephone

To make additional investments by telephone, you must authorize telephone purchases on your account application. If you have given authorization for telephone transactions and your account has been open for at least 15 days, call the Transfer Agent toll-free at (888) 979-IRON (4766) and you will be allowed to move money in amounts of at least \$500 but not greater than \$50,000, from your bank account to the Fund's account upon request. Only bank accounts held at U.S. institutions that are ACH members may be used for telephone transactions. If your order is placed before 4:00 p.m. (Eastern Time) on a business day, shares will be purchased in your account at the NAV calculated on that day. Orders received at or after 4:00 p.m. (Eastern Time) will be transacted at the next business day's NAV. For security reasons, requests by telephone will be recorded.

By wire

To open an account by wire, a completed account application form must be received by the Fund before your wire can be accepted. You may mail or send by overnight delivery your account application form to the Transfer Agent. Upon receipt of your completed account application form, an account will be established for you. The account number assigned to you will be required as part of the wiring instructions that should be provided to your bank to send the wire. Your bank must include the name of the Fund, the account number, and your name so that monies can be correctly applied. Your bank should transmit monies by wire to:

UMB Bank, n.a.
ABA Number 101000695

For credit to Ironclad Managed Risk Fund
A/C # 9871916782

For further credit to:
Your account number
Name(s) of investor(s)
Social Security Number or Taxpayer Identification Number

Before sending your wire, please contact the Transfer Agent at (888) 979-IRON (4766) to notify it of your intention to wire funds. This will ensure prompt and accurate credit upon receipt of your wire. Your bank may charge a fee for its wiring service.

Wired funds must be received prior to 4:00 p.m. (Eastern Time) on a business day to be eligible for same day pricing. **The Fund and UMB Bank, n.a. are not responsible for the consequences of delays resulting from the banking or Federal Reserve wire system, or from incomplete wiring instructions.**

Selling (Redeeming) Fund Shares

Through a broker-dealer or other financial intermediary

If you purchased your shares through an approved financial intermediary, your redemption order must be placed through the same financial intermediary. The Fund will be deemed to have received a redemption order when a financial intermediary (or its authorized agent) receives the order. The financial intermediary must receive your redemption order prior to 4:00 p.m. (Eastern Time) on a business day for the redemption to be processed at the current day's NAV. Orders received at or after 4:00 p.m. (Eastern Time) on a business day, or on a day when the Fund does not value its shares, will be transacted at the next business day's NAV. Please keep in mind that your financial intermediary may charge additional fees for its services. In the event your approved financial intermediary is no longer available or in operation, you may place your redemption order directly with the Fund as described below.

By mail

You may redeem shares purchased directly from the Fund by mail. Send your written redemption request to **Ironclad Managed Risk Fund** at the address indicated below. Your request must be in good order and contain the Fund name, the name(s) on the account, your account number and the dollar amount or the number of shares to be redeemed. The redemption request must be signed by all shareholders listed on the account. Additional documents are required for certain types of shareholders, such as corporations, partnerships, executors, trustees, administrators or guardians (*i.e.*, corporate resolutions dated within 60 days or trust documents indicating proper authorization).

Regular Mail
Ironclad Managed Risk Fund
P.O. Box 2175
Milwaukee, Wisconsin 53201

Overnight Delivery
Ironclad Managed Risk Fund
235 West Galena Street
Milwaukee, Wisconsin 53212

A Medallion signature guarantee must be included if any of the following situations apply:

- You wish to redeem more than \$50,000 worth of shares;
 - When redemption proceeds are sent to any person, address or bank account not on record;
 - If a change of address was received by the Transfer Agent within the last 15 days;
 - If ownership is changed on your account; or
 - When establishing or modifying certain services on your account.
-

By telephone

To redeem shares by telephone, call the Fund at (888) 979-IRON (4766) and specify the amount of money you wish to redeem. You may have a check sent to the address of record or, if previously established on your account, you may have proceeds sent by wire or electronic funds transfer through the ACH network directly to your bank account. Wire transfers are subject to a \$20 fee paid by the shareholder and your bank may charge a fee to receive wired funds. Checks sent via overnight delivery are subject to a \$25 charge. You do not incur any charge when proceeds are sent via the ACH network; however, credit may not be available for two to three business days.

If you are authorized to perform telephone transactions (either through your account application form or by subsequent arrangement in writing with the Fund), you may redeem shares worth up to \$50,000 by instructing the Fund by phone at (888) 979-IRON (4766). Unless noted on the initial account application, a Medallion signature guarantee is required of all shareholders in order to qualify for, or to change, telephone redemption privileges.

Note: The Fund and all of its service providers will not be liable for any loss or expense in acting upon instructions that are reasonably believed to be genuine. To confirm that all telephone instructions are genuine, the caller must verify the following:

- The Fund account number;
 - The name in which his or her account is registered;
 - The Social Security Number or Taxpayer Identification Number under which the account is registered; and
 - The address of the account holder, as stated in the account application form.
-

Medallion Signature Guarantee

In addition to the situations described above, the Fund reserves the right to require a Medallion signature guarantee in other instances based on the circumstances relative to the particular situation.

Shareholders redeeming more than \$50,000 worth of shares by mail should submit written instructions with a Medallion signature guarantee from an eligible institution acceptable to the Transfer Agent, such as a domestic bank or trust company, broker, dealer, clearing agency or savings association, or from any participant in a Medallion program recognized by the Securities Transfer Association. The three currently recognized Medallion programs are Securities Transfer Agents Medallion Program, Stock Exchanges Medallion Program and New York Stock Exchange, Inc. Medallion Signature Program. Signature guarantees that are not part of these programs will not be accepted. Participants in Medallion programs are subject to dollar limitations which must be considered when requesting their guarantee. The Transfer Agent may reject any signature guarantee if it believes the transaction would otherwise be improper. *A notary public cannot provide a signature guarantee.*

Systematic Withdrawal Plan

You may request that a predetermined dollar amount be sent to you on a monthly or quarterly basis. Your account must maintain a value of at least \$2,500 for you to be eligible to participate in the Systematic Withdrawal Plan (“SWP”). The minimum withdrawal amount is \$100. If you elect to receive redemptions through the SWP, the Fund will send a check to your address of record or will send the payment via electronic funds transfer through the ACH network directly to your bank account on record. You may request an application for the SWP by calling the Transfer Agent toll-free at (888) 979-IRON (4766). The Fund may modify or terminate the SWP at any time. You may terminate your participation in the SWP by calling the Transfer Agent at least five business days before the next withdrawal.

Payment of Redemption Proceeds

You may redeem shares of the Fund at a price equal to the NAV next determined after the Transfer Agent and/or authorized agent receives your redemption request in good order. Generally, your redemption request cannot be processed on days the NYSE is closed. Redemption proceeds for requests received in good order by the Transfer Agent and/or authorized agent before the close of the regular trading session of the NYSE (generally 4:00 p.m. Eastern Time) will usually be sent to the address of record or the bank you indicate, or wired using the wire instructions on record on the following business day. Payment of redemption proceeds may take longer than typically expected, but will be sent within seven calendar days after the Fund receives your redemption request, except as specified below.

If you purchase shares using a check and request a redemption before the check has cleared, the Fund may postpone payment of your redemption proceeds up to 15 calendar days while the Fund waits for the check to clear. Furthermore, the Fund may suspend the right to redeem shares or postpone the date of payment upon redemption for more than seven calendar days: (1) for any period during which the NYSE is closed (other than customary weekend or holiday closings) or trading on the NYSE is restricted; (2) for any period during which an emergency exists affecting the sale of the Fund’s securities or making such sale or the fair determination of the value of the

Fund's net assets not reasonably practicable; or (3) for such other periods as the SEC may permit for the protection of the Fund's shareholders.

Other Redemption Information

Shareholders who hold shares of the Fund through an IRA or other retirement plan must indicate on their redemption requests whether to withhold federal income tax. Redemption requests failing to indicate an election not to have taxes withheld will generally be subject to a 10% federal income tax withholding. In addition, if you are a resident of certain states, state income tax also applies to non-Roth IRA distributions when federal withholding applies. Please consult with your tax professional.

The Fund generally pays sale (redemption) proceeds in cash. The Fund typically expects to satisfy redemption requests by selling portfolio assets or by using holdings of cash or cash equivalents. On a less regular basis, the Fund may also satisfy redemption requests by using other short-term borrowings from its custodian. These methods may be used during both normal and stressed market conditions.

The Fund may redeem all of the shares held in your account if your balance falls below the Fund's minimum initial investment amount due to your redemption activity. In these circumstances, the Fund will notify you in writing and request that you increase your balance above the minimum initial investment amount within 30 days of the date of the notice. If, within 30 days of the Fund's written request, you have not increased your account balance, your shares will be automatically redeemed at the current NAV. The Fund will not require that your shares be redeemed if the value of your account drops below the investment minimum due to fluctuations of the Fund's NAV.

Cost Basis Information

Federal tax law requires that regulated investment companies, such as the Fund, report their shareholders' cost basis, gain/ loss, and holding period to the IRS on the Fund's shareholders' Consolidated Form 1099s when "covered" shares of the regulated investment companies are sold. Covered shares are any shares acquired (including pursuant to a dividend reinvestment plan) on or after January 1, 2012.

The Fund has chosen "first-in, first-out" ("FIFO") as its standing (default) tax lot identification method for all shareholders, which means this is the method the Fund will use to determine which specific shares are deemed to be sold when there are multiple purchases on different dates at differing net asset values, and the entire position is not sold at one time. The Fund's standing tax lot identification method is the method it will use to report the sale of covered shares on your Consolidated Form 1099 if you do not select a specific tax lot identification method. Redemptions are taxable and you may realize a gain or a loss upon the sale of your shares. Certain shareholders may be subject to backup withholding.

Subject to certain limitations, you may choose a method other than the Fund's standing method at the time of your purchase or upon the sale of covered shares. **For all shareholders using a method other than the specific tax lot identification method, the Fund first redeems shares you acquired on or before December 30, 2011, and then applies your elected method to shares acquired after that date.** Please refer to the appropriate Treasury regulations or consult your tax advisor with regard to your personal circumstances.

Tools to Combat Frequent Transactions

The Trust's Board of Trustees has adopted policies and procedures with respect to frequent purchases and redemptions of Fund shares by Fund shareholders. The Trust discourages excessive, short-term trading and other abusive trading practices that may disrupt portfolio management strategies and harm the Fund's performance. The Trust takes steps to reduce the frequency and effect of these activities in the Fund. These steps may include monitoring trading activity and using fair value pricing. In addition, the Trust may take action, which may include using its best efforts to restrict a shareholder's trading privileges in the Fund, if that shareholder has engaged in four or more "round trips" in the Fund during a 12-month period. Although these efforts (which are described in more detail below) are designed to discourage abusive trading practices, these tools cannot eliminate the possibility that such activity may occur. Further, while the Trust makes efforts to identify and restrict frequent trading, the Trust receives

purchase and sale orders through financial intermediaries and cannot always know or detect frequent trading that may be facilitated by the use of intermediaries or the use of group or omnibus accounts by those intermediaries. The Trust seeks to exercise its judgment in implementing these tools to the best of its ability in a manner that the Trust believes is consistent with the interests of Fund shareholders.

Redemption Fee

You will be charged a redemption fee of 2.00% of the value of the Fund shares being redeemed if you redeem your shares of the Fund within 30 days of purchase. The FIFO method is used to determine the holding period; this means that if you bought shares on different days, the shares purchased first will be redeemed first for the purpose of determining whether the redemption fee applies. The redemption fee is deducted from the sale proceeds and is retained by the Fund for the benefit of its remaining shareholders. The fee will not apply to redemptions (i) due to a shareholder's death or disability, (ii) from certain omnibus accounts with systematic or contractual limitations, (iii) of shares acquired through reinvestments of dividends or capital gains distributions, (iv) through certain employer-sponsored retirement plans or employee benefit plans or, with respect to any such plan, to comply with minimum distribution requirements, (v) effected pursuant to asset allocation programs, wrap fee programs, and other investment programs offered by financial institutions where investment decisions are made on a discretionary basis by investment professionals, (vi) effected pursuant to an automatic non-discretionary rebalancing program, (vii) effected pursuant to the SWP, or (viii) by the Fund with respect to accounts falling below the minimum initial investment amount. The Trust reserves the right to waive this fee in other circumstances if the Advisor determines that doing so is in the best interests of the Fund.

Monitoring Trading Practices

The Trust may monitor trades in Fund shares in an effort to detect short-term trading activities. If, as a result of this monitoring, the Trust believes that a shareholder of the Fund has engaged in excessive short-term trading, it may, in its discretion, ask the shareholder to stop such activities or refuse to process purchases in the shareholder's accounts. In making such judgments, the Trust seeks to act in a manner that it believes is consistent with the best interest of Fund shareholders. Due to the complexity and subjectivity involved in identifying abusive trading activity, there can be no assurance that the Trust's efforts will identify all trades or trading practices that may be considered abusive.

General Transaction Policies

Some of the following policies are mentioned above. In general, the Fund reserves the right to:

- vary or waive any minimum investment requirement;
- refuse, change, discontinue, or temporarily suspend account services, including purchase or telephone redemption privileges (if redemption by telephone is not available, you may send your redemption order to the Fund via regular or overnight delivery), for any reason;
- reject any purchase request for any reason (generally, the Fund does this if the purchase is disruptive to the efficient management of the Fund due to the timing of the investment or an investor's history of excessive trading);
- delay paying redemption proceeds for up to seven calendar days after receiving a request, if an earlier payment could adversely affect the Fund;
- reject any purchase or redemption request that does not contain all required documentation; and
- subject to applicable law and with prior notice, adopt other policies from time to time requiring mandatory redemption of shares in certain circumstances.

If you elect telephone privileges on the account application or in a letter to the Fund, you may be responsible for any fraudulent telephone orders as long as the Fund and/or its service providers have taken reasonable precautions to verify your identity. In addition, once you place a telephone transaction request, it cannot be canceled or modified.

During periods of significant economic or market change, telephone transactions may be difficult to complete. If you are unable to contact the Fund by telephone, you may also mail your request to the Fund at the address listed under "Methods of Buying."

Your broker or other financial intermediary may establish policies that differ from those of the Fund. For example, the organization may charge transaction fees, set higher minimum investments, or impose certain limitations on buying or selling shares in addition to those identified in this Prospectus. Contact your broker or other financial intermediary for details.

Please note that the value of your account may be transferred to the appropriate state if no activity occurs in the account within the time period specified by state law.

Availability of Information

In order to reduce the amount of mail you receive and to help reduce expenses, we generally send a single copy of any shareholder report and Prospectus to each household. If you do not want the mailing of these documents to be combined with those of other members of your household, please contact your authorized dealer or the Transfer Agent.

Additional Information

The Fund enters into contractual arrangements with various parties, including among others the Adviser, who provide services to the Fund. Shareholders are not parties to, or intended (or “third party”) beneficiaries of, those contractual arrangements.

The Prospectus and the SAI provide information concerning the Fund that you should consider in determining whether to purchase shares of the Fund. The Fund may make changes to this information from time to time. Neither this prospectus nor the SAI is intended to give rise to any contract rights or other rights in any shareholder, other than any rights conferred by federal or state securities laws that may not be waived.

DIVIDENDS AND DISTRIBUTIONS

The Fund will make distributions of net investment income and net capital gains, if any, at least annually, typically in December. The Fund may make additional payments of dividends or distributions if it deems it desirable at any other time during the year.

All dividends and distributions will be reinvested in Fund shares unless you choose one of the following options: (1) to receive net investment income dividends in cash, while reinvesting capital gain distributions in additional Fund shares; or (2) to receive all dividends and distributions in cash. If you wish to change your distribution option, please write to the Transfer Agent before the payment date of the distribution.

If you elect to receive distributions in cash and the U.S. Postal Service cannot deliver your check, or if your distribution check has not been cashed for six months, the Fund reserves the right to reinvest the distribution check in your account at the Fund’s then current NAV and to reinvest all subsequent distributions.

FEDERAL INCOME TAX CONSEQUENCES

The following discussion is very general and does not address investors subject to special rules, such as investors who hold Fund shares through an IRA, 401(k) plan or other tax-advantaged account. The SAI contains further information about taxes. Because each shareholder’s circumstances are different and special tax rules may apply, you should consult your tax advisor about your investment in the Fund.

You will generally have to pay federal income taxes, as well as any state or local taxes, on distributions received from the Fund, whether paid in cash or reinvested in additional shares. If you sell Fund shares, it is generally considered a taxable event.

Distributions of net investment income, other than “qualified dividend income,” and distributions of net short-term capital gains, are taxable for federal income tax purposes at ordinary income tax rates. Distributions from the Fund’s

net capital gain (*i.e.*, the excess of its net long-term capital gain over its net short-term capital loss) are taxable for federal income tax purposes as long-term capital gain, regardless of how long the shareholder has held Fund shares.

Since the Fund's income is derived primarily from sources that do not pay dividends, it is not expected that a substantial portion of the dividends paid by the Fund will qualify either for the dividends-received deduction for corporations or for any favorable U.S. federal income tax rate available to non-corporate shareholders on "qualified dividend income."

You may want to avoid buying shares of the Fund just before it declares a distribution (on or before the record date), because such a distribution will be taxable to you even though it may effectively be a return of a portion of your investment.

Although distributions are generally taxable when received, dividends declared in October, November or December to shareholders of record as of a date in such month and paid during the following January are treated as if received on December 31 of the calendar year when the dividends were declared. Information on the federal income tax status of dividends and distributions is provided annually.

Dividends and distributions from the Fund and net gain from redemptions of Fund shares will generally be taken into account in determining a shareholder's "net investment income" for purposes of the Medicare contribution tax applicable to certain individuals, estates and trusts.

If you do not provide the Fund with your correct taxpayer identification number and any required certifications, you will be subject to backup withholding on your redemption proceeds, dividends and other distributions. The backup withholding rate is currently 24%.

Dividends and certain other payments made by the Fund to a non-U.S. shareholder are subject to such withholding of federal income tax at the rate of 30% (or such lower rate as may be determined in accordance with any applicable treaty). Dividends that are reported by the Fund as "interest-related dividends" or "short-term capital gain dividends" are generally exempt from such withholding. In general, the Fund may report interest-related dividends to the extent of its net income derived from U.S.-source interest and the Fund may report short-term capital gain dividends to the extent its net short-term capital gain for the taxable year exceeds its net long-term capital loss. Backup withholding will not be applied to payments that have been subject to the 30% withholding tax described in this paragraph.

Unless certain non-U.S. entities that hold shares comply with IRS requirements that will generally require them to report information regarding U.S. persons investing in, or holding accounts with, such entities, a 30% withholding tax may apply to distributions and, after December 31, 2018, to redemption proceeds and certain capital gain dividends payable to such entities. A non-U.S. shareholder may be exempt from the withholding described in this paragraph under an applicable intergovernmental agreement between the U.S. and a foreign government, provided that the shareholder and the applicable foreign government comply with the terms of the agreement.

FINANCIAL HIGHLIGHTS

The following table is intended to help you understand the Fund's financial performance. Certain information reflects financial results for a single Fund share. The total return figures represent the percentage that an investor in the Fund would have earned (or lost) on an investment in the Fund (assuming reinvestment of all dividends and distributions). The financial information for the periods shown has been audited by Tait, Weller & Baker LLP, an independent registered public accounting firm, whose report, along with the Fund's financial statements, is included in the Fund's annual report, which is available upon request (see back cover).

Ironclad Managed Risk Fund

Per share operating performance.

For a capital share outstanding throughout each period.

	For the Year Ended September 30,				
	2017	2016	2015	2014	2013
Net asset value, beginning of period	\$ 10.85	\$ 10.85	\$ 11.54	\$ 11.10	\$ 11.59
Income from Investment Operations:					
Net investment loss ¹	(0.09)	(0.13)	(0.14)	(0.14)	(0.13)

A series of Investment Managers Series Trust

FOR MORE INFORMATION

Statement of Additional Information (SAI)

The SAI provides additional details about the investments and techniques of the Fund and certain other additional information. A current SAI is on file with the SEC and is incorporated into this Prospectus by reference. This means that the SAI is legally considered a part of this Prospectus, even though it is not physically within this Prospectus.

Shareholder Reports

Additional information about the Fund's investments is available in the Fund's annual and semi-annual reports to shareholders. In the Fund's annual report, you will find a discussion of the market conditions and investment strategies that significantly affected the Fund's performance during its most recent fiscal year.

The Fund's SAI, annual and semi-annual reports are available, free of charge, on the Fund's website at www.IroncladFunds.com. You can also obtain a free copy of the Fund's SAI or annual and semi-annual reports, request other information, or inquire about the Fund by contacting an approved financial intermediary or by calling the Fund (toll-free) at (888) 979-IRON (4766) or by writing to:

Ironclad Managed Risk Fund
P.O. Box 2175
Milwaukee, WI 53201

Information about the Fund (including the SAI) can be reviewed and copied at the Public Reference Room of the SEC in Washington, DC. You can obtain information on the operation of the Public Reference Room by calling the SEC at (202) 551-8090. Reports and other information about the Fund are also available:

- Free of charge on the SEC's EDGAR Database on the SEC's Internet site at www.sec.gov;
- For a duplication fee, by electronic request at the following e-mail address: publicinfo@sec.gov; or
- For a duplication fee, by writing to the SEC's Public Reference Section, Washington, DC 20549-1520.

(Investment Company Act file number 811- 21719.)
