

Landscaping Improvement Initiative

At its last meeting the Property Committee discussed the appearance of St. Mark's grounds. Some areas are beautiful—the court yard reflects the efforts of a few faithful individuals. And, Rankin Landscaping has consistently cared well for the grass on all our properties. However, other areas, such as some around the Friendship House are overgrown and need attention.

The Property Committee recognized the needed landscape work is extensive and beyond the capability of those currently caring for St. Mark's gardens. As a result the Property Committee is asking for immediate help from members and groups to:

1. Clear an overgrown area of St. Mark's property and/or

2. Maintain a cleared area of St. Mark's property

Work sites and times are your choice. Tools and supplies are available if needed. For site, scheduling and other information, please contact Alan Eck at FranAlanEck@msn.com or call 703-569-0814.
