

Tutoring at Lynbrook

I am the librarian at Lynbrook Elementary School. We have a Tutoring Program for some of our students on Wednesdays from October 18 – December 13 from 3:40-4:45 PM, and we are hoping that this program will continue into late April/early May. We are looking for tutors that could commit with some consistency because we try to match up a student and the tutor for the entire year. This way they can build a relationship with one another. It is about providing homework help, but it also about providing a positive role model from the local community. This could be members that are high school students, working members, or members that are retired, men or women, young or old.

Thank you advance for your help with this program.
