

# intelivote systems inc

*Election officials' mandate often includes containing election costs, but most importantly, managing administrative time/effort, and providing overall management for an election. These requirements are among the key objectives and benefits available through the implementation of Intelivote's eVoting solution. Project management coupled with established processes and procedures is delivered by a team of information systems professionals and electronic elections experts, providing clients with the best in-class solution. Intelivote's consulting services assist election officials in all aspects of the election cycle.*

## Election Cycle

### PRE-ELECTION

Intelivote's team of election experts assist electoral administrators in the planning and configuration of eVoting elections including Elector List management, legislative compliance, and voting communication development.

Providing training and education to election personnel on all aspects of Internet and telephone voting ensures a successful voter experience, and is included in Intelivote's base services.

Intelivote delivers expert guidance on Kiosk-based voting assistance locations and paper voting integration with the eVoting experience.

### ELECTION PERIOD

The eVoting period encompasses eVoting activity via Internet and telephone, candidate campaigning using the Intelivote Candidate Module, and voter communication management provided by trained HelpLine agents, all facilitated by a suite of Intelivote modules.

Voters can participate remotely or by using a Kiosk at a local voter assistance location.

Intelivote performs continuous monitoring of election progression, and election official modules provide on-demand reports available with real-time information.

### POST-ELECTION

Following the eVoting period, electronic voting results are available within minutes. Election results are official and verified by 3<sup>rd</sup> party auditors using the integrated Auditor Module.

Intelivote permits access to the library of modules for an extended period of time following the election to allow for Elector List finalization and final report access.

Election data is also translated into comprehensive election statistics by the Intelivote team to demonstrate various trends from the election activity.

# Intelivote's eVoting Solution

## Engagement

Increasing voter participation through multiple channel voting methods, and through interactive information sessions and voter education on Internet and Telephone voting.

## Accessibility

Offering disabled persons the option to vote from any location and allowing the use of more than one method, translates through to an increase in the opportunity for disabled persons to vote without any assistance. This offers all voters the same level of independence and privacy.

## Security

Intelivote delivers high-speed high-bandwidth data capability, and scalable IVR (telephone) port availability, further demonstrating the commitment to ensuring an election with maximum performance, communications path diversity, application redundancy and high survivability.

## Project Management

Intelivote's consulting services delivered through the preparation and planning phases of the election cycle aid in ensuring the successful delivery of the eVoting experience to voters and admin alike.

## Election Support

Although election officials are provided with all of the necessary tools and services to monitor election activity, Intelivote also provides election support and supervision throughout the eVoting period.

## Results

Results are available upon completion of the election through Intelivote's Chief Electoral Officer (CEO) module provided to authorized election personnel; controlled through pre-issued credentials and invoked using secure digital certificates. Post-election results are accessible once the election period has officially ended and finalized following the direction of the election officials.

# Intelivote Systems Inc.

has delivered hundreds of electronic eVoting elections for many organizations such as municipal governments, provincial and Federal government agencies, aboriginal associations, political parties, and international unions.
