

Letter of Reference

July 20, 2015

To Whom It May Concern,

Frazier, Barnes & Associates has been a great resource to our company, they have been instrumental in helping us diagnose process issues in our plant, determine process efficiencies, evaluate new equipment and make process upgrades that have dramatically improved our operations.

They provide a full suite of technical and engineering resources that we don't have in-house, our business requires us to evaluate many facets of the business, of which Frazier Barnes & Associates have been an incredible resource to us. In fact, we have been working with them for more than a year now and are very happy with the results we have seen by working with them. They are easy to get along with and understand our industry as they have been in biodiesel industry for a long time.

I highly recommend them to any organization requiring consulting, technical resources, engineering, etc. in our industry.

Sincerely,

A handwritten signature in blue ink, appearing to read "Rick Johannesson", is written over the word "Sincerely,".
