# ALBERTA

## ALBERTA - VINTAGE OVERDRIVE

Some people say Alberta was born to play the blues - and it certainly does deliver that vintage tubey warmth that bluesmen are always looking for. With its creamy, yet crunchy sound a smooth mid-range boost, we recommend Alberta for everything from Muddy Waters to White Stripes.

## CONTROLS

Alberta's controls are plain minimalistic, with just 3 knobs - GAIN, LEVEL and TONE.

The **GAIN** knob controls the distortion amount.

The **LEVEL** knob sets the overall volume.

The **TONE** knob affects the top end (edge) of your signal without compromising sonic quality, allowing you to dial in the perfect tonal flavour for you taste.
