The
KALYPSO
Difference

Our mission is to help our clients deliver on the promise of innovation

EXCLUSIVE FOCUS

COMPREHENSIVE CAPABILITY

INFORMED OPINIONS

FLEXIBLE DELIVERY

SUSTAINED RESULTS

OUR VISION

We will be the world's premier innovation consulting firm.

We combine a comprehensive set of world-class management consulting capabilities to deliver on the promise of innovation while serving as the world's most respected provider of objective technology advisory and implementation services.

As a global private partnership, we are a platform for professionals to grow personally and professionally by creating friendship, eminence, excellence and prosperity.

We are a diverse group of professionals with a **common set of core values** that shape our culture and set us apart. At the heart of this culture is a belief in the power of innovation to improve people's lives. **This is our calling.**

LEADERS BEHIND THE LEADERS

We invest in the long-term success of our individual clients, not just their companies.

We celebrate every individual client promotion and view them as a measure of our value.

We believe that trusted advisors do not stop advising when the project is complete.

We reserve the spotlight and glory of success for you, not the consulting team.

PROFESSIONALISM, INTEGRITY AND QUALITY

We believe that serving clients is a privilege and accept the responsibility to do it well.

We demand unquestioned integrity and veracity from all of our people in every situation.

We hire exceptional people for their professional excellence and superior performance.

We balance creativity and passion for ideas with professionalism and pragmatism.

PASSION FOR PERSONAL DEVELOPMENT

We do not tolerate intellectual sloth or stagnation. Continuous learning is required.

We stay on the leading edge of management thinking and adapt new concepts rapidly.

We genuinely care about one another's success and work hard to help our colleagues.

We believe in the development of the "whole" person, not just the business side.

CHARACTERS WITH CHARACTER

We think that interesting people are more fun to work with.

We foster a healthy lack of respect for hierarchy and positional authority.

We are passionate about what we do and know how to have fun – at work and after.

We build life-long relationships with our colleagues. We work with our closest friends.

POWER OF CREATIVITY AND INNOVATION

We believe that innovation combined with action can change the world for the better.

We expect lively debate and dissent from all levels of the organization – ours and yours.

We value different ways of thinking and problem solving. Here's to the weird ones.

We feel that the diversity of our teams bring fresh perspectives and insight to our work.

COMMITMENT TO BUSINESS PARTNERS

We treat our business partners as if they were our clients or our practitioners.

We bring integrity and respect to our alliance relationships as well as our clients.

We go to extraordinary lengths to help each other – without keeping score.

We expect the same in return from the people we choose to do business with.
